Reasons Behind Nixon Journeys Are Explained

WASHINGTON (AP) — President Nixon, expected to announce a date for his China trip within 48 hours, is described as eager to ease East-West tensions—but not at the expense of old friendships.

Press secretary Ronald L. Ziegler said a desire to have meaningful consultations with major allies prior to journeys to Peking and Moscow was a key reason for Nixon's announced intentions to meet during the next five weeks with leaders of Britain, France, West Germany, Japan and Canada.

Talking to a group of news men aboard Air Force One as the President flew here Sunday night from California, Ziegler said:

"The purpose of the consultations is to inform our allies about our views of the world and to inform them about what the President intends to accomplish . . . The President wants to hear their views, and he's going to give his."

Another White House official, who declined to be identified, said Nixon was bound for Peking and Moscow "to relax tensions but not to sacrifice allied unity."

This source said the allied leaders would not be granted "an absolute veto" over any initiatives Nixon may take in the Communist capitals. "But," he added, "if there are grave concerns, they will be taken into consideration."

Ignoring reports that hitches have developed, Ziegler continued to promise that a date for the President's Peking trip will be announced within 48 hours.

There have been several published and broadcast reports suggesting the historic mission might be postponed or canceled.

Ziegler confirmed during the flight that Nixon will meet here in December with Canadian Prime Minister Pierre Elliott Trudeau.

Before leaving California, Ziegler announced the chief executive and West German Chancellor Willy Brandt will confer Dec. 28-29 at the Florida White House in Key Biscayne.

Earlier the White House had unveiled plans for Nixon meetings with:

—President Georges Pompidou of France in the Azores Dec. 13-14.

—British Prime Minister Edward Heath in Bermuda Dec. 20-21.

—Japanese Prime Minister Eisaku Sato at the Western White House in San Clemente, Calif., Jan. 6-7.

No Muzzling At Aging Meet, Flemming Says

WASHINGTON (AP) — Delegates to the second White House Conference on Aging, urged not to launch political attacks but promised there will be no muzzling, today split into small study groups to seek solutions for their problems.

Ninety-five meetings were scheduled simultaneously in four downtown hotels. The recommendations will be pooled Thursday into what the chairman, Arthur S. Flemming, said he hopes will be a "positive action program."

Eight congressmen handling legislation important to the elderly were invited to speak at four separate luncheons for the 3,500 delegates.

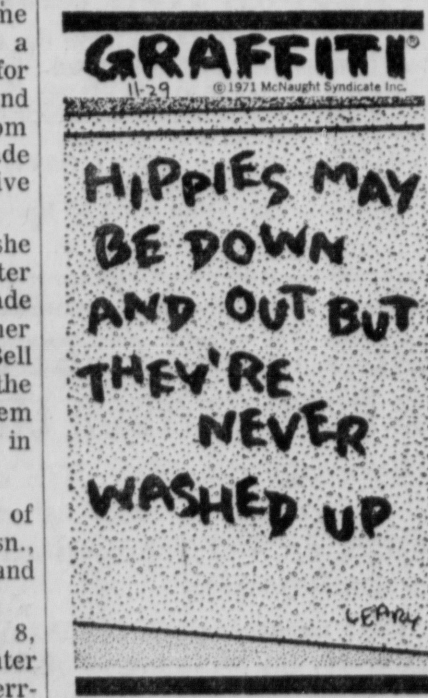

Six national organizations of elderly joined Flemming Sunday night in attempting to discourage political rhetoric.

"Any attempt to utilize the conference for partisan political advantage will be a violation of the spirit which has permeated the planning of the conference," said the statement by the American Association of Retired Persons and National Retired Teachers Association, National Association of Retired Federal Employees, National Caucus on the Black Aged, National Council on the Aging and National Council of Senior Citizens.

His no-muzzling pledge will be put to the test tonight at an Open Forum, which gives each delegate up to five minutes to discuss any area of aging except specific legislation.

Minority groups will have their own separate "special concerns" meetings Wednesday morning.

"I hope that we will not spend very much time at this conference dwelling on our own or other persons or groups sins of omission," Flemming said.

MRS. JOSEPH BELL

Mrs. Joseph (Elsie Ann) Bell, 54, of 581 N. Court St., a school teacher and well known member of the community, died 1 a.m. Monday in Berger Hospital following a long-term cancer illness.

Mrs. Bell had long been involved in the local education system, beginning in 1937 when she taught a fourth grade class for two years at the Corwin Elementary building.

She substituted in the local classrooms for many years, but in 1962, returned as a full-time teaching employee, assuming a half day teaching each for principals at Atwater and Mount St. to free them from their first and sixth grade classes for administrative duties.

During the past six years she taught a half-day at Atwater Elementary on the sixth grade level. Always dedicated to her job and her students, Mrs. Bell organized science fairs for the sixth graders and taught them to take an active interest in current affairs.

SHE was also a member of the Ohio Education Assn., Circleville Teachers Assn. and the Trinity Lutheran Church.

Elsie Bell was born June 8, 1917 in Circleville, the daughter of Robert L. and Nettie Herrmann Brehmer. Her father survives at 581 N. Court St.

Other survivors include her husband, Joseph F. Bell; four sons, Brent M., 137 Watt St.; R. Brian, Dayton; J. Bruce, 108 Northridge Road and E. Brock of the home; three granddaughters; one brother, Robert L. Brehmer Jr., 895 Atwater Ave.

Services will be 2 p.m. Wednesday in the Trinity Lutheran Church with Pastor Carl Zehner officiating. Burial will be in Forest Cemetery.

Friends may call at the Mader Funeral Home beginning 1 p.m. Tuesday until 1 p.m. Wednesday. The casket will not be opened in the church.

Extended Controls, Back Pay Debated By Senators

Ohio Solons Again Eye Tax Crisis

COLUMBUS, Ohio (AP) — Legislators return to the capitol today for the 48th week of the 109th General Assembly session faced with the familiar task of working out a permanent tax and spending program for Ohio.

Lawmakers have been agonizing over the problem for the past 38 of those 48 weeks.

Three efforts at compromise have reached the point of floor votes in the last two weeks only to fail the final test. The Senate turned down two income tax proposals. The House rejected a sales tax alternative.

All three tax plans were the result of intense negotiations in three different joint House-Senate conference committees. A fourth joint committee is expected to be appointed by legislative leaders today to renew the search for a common ground on taxes acceptable to a majority of the 132-member legislature.

Some statistics of the continuing financial plight of the state:

—Ohio is 151 days late in enacting permanent money programs for the 1971-73 biennium that began July 1.

—Seven interim appropriations for varying dollar amounts and lengths of time have already been needed to keep government programs solvent.

—An eighth interim budget will probably be acted on by the Senate late today. This one will pay state bills through the end of the year.

—Despite austerity cutbacks of the Gilligan administration, unless permanent programs are enacted soon the state will experience a cash flow crisis financial experts have predicted.

Causes of the money shortage—forecast for February—

are the unanticipated swelling of Aid to Dependent Children rolls, inflation and automatic salary increases within the civil service.

Gov. John Gilligan in August ordered statewide spending cuts to offset the cash flow problem. The aim of the cutbacks was to stockpile about \$6.5 million a month for the six months through February, just enough to make up for the \$40

million shortage the state expected.

Finance Director Harold Hovey now says the figure will be much smaller, thanks to the moderately-successful efforts at austerity, but a deficit will still occur forcing the state to fall behind on salaries and bills.

While tax deliberations continue, however, new attempts to force reconsideration of biennial spending levels of \$8.1 billion generally agreed to since

early this summer are mounting.

Promoters of the idea argue that with the income tax apparently dead this assembly session, a smaller budget financed through normal revenue growth coupled with some new indirect taxes has again become a reasonable alternative.

The Senate has its floor session set for 4 p.m. The House is to return for an 8 p.m. meeting.

U.S. Copter, 33 Aboard Missing Off Vietnam Coast

SAIGON (AP) — A big U.S. helicopter disappeared during a thunderstorm along the northern coast of South Vietnam, and 33 American troops were reported missing today.

The pilot radioed he had an emergency, then contact was lost.

A spokesman for the U.S. Command, Maj. Richard Gardner, said the destroyer Epperson was leading an extensive air and sea search.

Gardner said the CH47 Chinook helicopter carried a crew of five and 28 passengers, all from the U.S. 101st Airborne Division, which is now being withdrawn from the Vietnam war.

It was on a flight Sunday afternoon from Da Nang to Phu Bai, the headquarters of the division 50 miles north of Da Nang. Gardner said that 30 minutes after taking off, the pilot radioed he had an emergency.

The helicopter was believed to have taken a route over the South China sea instead of flying over land, Gardner said. At the time there were thunderstorms and low visibility, the command said.

It could be the worst U.S. helicopter disaster in nearly

four years, since a CH53 crashed into a mountain on Jan. 8, 1968, killing all 41 Americans aboard.

The U.S. Command also reported the loss of three other helicopters and a fighter-bomber with three crewmen killed, three missing and six wounded. This raised to 8,033 the total number of U.S. aircraft reported lost in the war.

The F4 Phantom jet fighter-bomber crashed in the lower panhandle of Laos last Tuesday, and its two pilots are listed as missing. An HH33 Super Jolly Green Giant helicopter crashed Thursday in the Nha Be River 12 miles southeast of Saigon during bad weather.

Three crewmen were killed, two were injured and one is missing, a spokesman said.

The other two helicopters, both OH6 light observation craft, were shot down over the

weekend during heavy fighting in South Vietnam's central highlands, and four crewmen were wounded.

The allied commands reported 86 North Vietnamese troops killed in the fighting northwest of Kontum, where a major enemy border buildup is reported. More than half of these were credited to U.S. helicopter gunships and American and South Vietnamese bombers.

No U.S. ground troops were involved, but two South Vietnamese rangers were killed and 27 were wounded, the South Vietnamese command said.

South Vietnamese forces claimed another 32 enemy troops killed in two clashes in the Northern Mekong delta.

Two South Vietnamese offensives involving 50,000 troops continued to meet only light resistance.

Girl Shot By Hunter Year Ago, Returning To School

SALMON, Idaho (AP) — More than a year after she was critically injured by a hunter who mistook her for a deer, 7-year-old Karyn Prestwich returns to school today.

Karyn, with her left leg in a cast to her waist, propped her crutches on a snowmobile Thanksgiving Day and took a spin—by herself—around her home in North Fork, near Salmon in northeast Idaho.

The girl's plight attracted nationwide attention after she was struck in the abdomen by a high-powered rifle bullet Nov. 5, 1970, while waiting for a school bus. About \$17,000 has been donated to pay for medical bills.

While the girl was spending seven months in the hospital, an anonymous donor gave \$2,000.

A man from Washington state sent his coin collection, valued at \$350. He said he worked 25 years on it.

A family in Georgia sent \$500.

The man who mistakenly shot

her, Roy Wells, 53, of Torrance, Calif., sent \$500 and gave her a doll for her birthday. Wells, charged originally with assault with a deadly weapon, pleaded guilty to a reduced charge of negligent use of a firearm.

Wells rushed the girl to a hospital after the mishap. "The man said he thought I was a deer," Karyn said at the hospital.

She was wearing a brown coat. "I just can't believe that people who don't even know her can care about her so very much," her mother said.

Karyn's father, Donald Prestwich, works for the U.S. Forest Service.

Karyn, who will be 8 on Dec. 21, has two sisters—Jenny, 2, and Carrie, 4.

During her convalescence, Karyn had a tutor in her home and in the hospital.

Today she will catch her old bus for a 35-mile ride to the Pioneer Elementary School in Salmon.

"She's just getting along great," her grandmother, Kay Hagel, said. "We're really pleased."

Proxmire Says Year's Time Is Too Long

WASHINGTON (AP) — The Senate opens debate today on a bill giving President Nixon an extra year to continue wage-price controls but also allowing most pay hikes stopped by the Aug. 15-Nov. 14 freeze.

Senate leaders said they hoped to complete action on the measure tomorrow. It was uncertain whether the Nixon administration would try to knock out the retroactive pay feature which it opposes.

This feature is specifically designed to give pay raises to teachers and others who were denied them because of the date selected for the freeze.

Sen. William Proxmire, D-Wis., chairman of the Senate-Economic Committee, announced in advance he planned to vote against the bill unless it is drastically revised on the Senate floor.

The administration's Phase 2 program "is so complex, unworkable and unenforceable that it is bound to engender hostility by consumers and workers alike throughout the country, and the serious economic confusion is likely to slow the economy and aggravate unemployment," Proxmire asserted.

George Shultz, director of the Office of Management and the Budget argued for passage of the extension "so we don't have this uncertainty created all over again next spring."

Shultz made his remarks on the ABC radio-TV program "Issues and Answers" Sunday.

As approved by the Senate Banking Committee, the bill gives Nixon the essential power he seeks to continue wage, price and rent controls through April 30, 1973.

The measure also gives him standby powers to put ceilings on dividends and interest, as he requested, and contains housekeeping provisions to make Phase 2 more effective.

Prison Revolt

PRINCETON, N.J. (AP) — Gov. William T. Cahill says he would have entered Rahway State Prison alone last week if such a move had been necessary to end a 24-hour rebellion by some 500 inmates.

The prisoners released seven hostages and ended the disturbance voluntarily Thanksgiving night after authorities permitted three newsmen to enter the prison to hear inmate grievances.

"I would have gone into the prison if the negotiations fell down, and I would have confronted them alone if necessary," Cahill told an interviewer Sunday.

He acknowledged that at one point a decision was made to attack the prison, but that the decision was later reversed.

Proxmire Says Year's Time Is Too Long

WASHINGTON (AP) — The Senate opens debate today on a bill giving President Nixon an extra year to continue wage-price controls but also allowing most pay hikes stopped by the Aug. 15-Nov. 14 freeze.

Senate leaders said they hoped to complete action on the measure tomorrow. It was uncertain whether the Nixon administration would try to knock out the retroactive pay feature which it opposes.

This feature is specifically designed to give pay raises to teachers and others who were denied them because of the date selected for the freeze.

Sen. William Proxmire, D-Wis., chairman of the Senate-House Economic Committee, announced in advance he planned to vote against the bill unless it is drastically revised on the Senate floor.

The administration's Phase 2 program "is so complex, unworkable and unenforceable that it is bound to engender hostility by consumers and workers alike throughout the country, and the serious economic confusion is likely to slow the economy and aggravate unemployment," Proxmire asserted.

George Shultz, director of the Office of Management and the Budget argued for passage of the extension "so we don't have this uncertainty created all over again next spring."

Shultz made his remarks on the ABC radio-TV program "Issues and Answers" Sunday.

As approved by the Senate Banking Committee, the bill gives Nixon the essential power he seeks to continue wage, price and rent controls through April 30, 1973.

The measure also gives him standby powers to put ceilings on dividends and interest, as he requested, and contains house-keeping provisions to make Phase 2 more effective.

On Rahway

Prison Revolt

PRINCETON, N.J. (AP) — Gov. William T. Cahill says he would have entered Rahway State Prison alone last week if such a move had been necessary to end a 24-hour rebellion by some 500 inmates.

The prisoners released seven hostages and ended the disturbance voluntarily Thanksgiving night after authorities permitted three newsmen to enter the prison to hear inmate grievances.

"I would have gone into the prison if the negotiations fell down, and I would have confronted them alone if necessary," Cahill told an interviewer Sunday.

He acknowledged that at one point a decision was made to attack the prison, but that the decision was later reversed.

Stewardess Says Skyjacker Admitted Slaying Trooper

By THE ASSOCIATED PRESS

A stewardess from a Trans World Airlines jetliner hijacked to Cuba says one of the three men who commandeered the plane admitted killing a New Mexico state trooper.

"The smallest one, his name was Michael but had been changed to the African name Mahcha, said he killed the officer," stewardess Ann Harrell said after she and five other crew members of the Boeing 727 returned to Miami from Havana Sunday.

The FBI identified the three black hijackers as the same trio charged with gunning down trooper Robert Rosenbloom when he made a routine stop of their vehicle Nov. 8 near Albuquerque, N.M.

The FBI identified them as Michael R. Finney, 20, of San Francisco and Berkeley, Calif.;

Ralph L. Goodwin, 24, of Berkeley; and Charles Hill, 21, no hometown.

The pilot of the hijacked flight, Capt. John McGhee, said he feared "someone was going to die" when the three young men stormed aboard the plane as it was boarding passengers at Albuquerque early Saturday.

"These men boarded in a violent, agitated manner and were obviously ready to commit murder," McGhee said after bringing the plane back from an overnight stay at Havana.

Once the plane was airborne from Albuquerque, stewardess Betty Canbre said, she lied at knifepoint to convince "their leader that this airplane couldn't fly all the way to Africa."

She said she told him she'd been to Cuba twice and knew

hijackers would be treated nicely by the island's Communist regime.

"I lied," she admitted.

McGhee said he then convinced the hijackers that he needed a refueling stop. After the fugitives refused to let him fly to Atlanta or Miami, the plane landed at Tampa, Fla., where the 43 passengers were allowed to deplane.

A Federal Aviation Administration spokesman said Cuban officials informed the FAA that the trio was taken into custody and disarmed of two guns and a knife when the jet landed in Havana.

In the Pacific Northwest, an intensive search continued Sunday for a man who hijacked a Northwest Airlines 727 last Wednesday and then bailed out with \$200,000 in ransom money.

Three Injured, One Cited In 3-Car Crash

Three persons were injured and one cited in a three-car accident 9:06 p.m. Sunday at the junction of N. Pickaway St. and Folsum Ave.

Patricia A. Currie, 16, Route 5, was northbound on Pickaway St. and had put her turn signal on to make a left turn at Folsum Ave.

A second northbound car, driven by Vernon Mack Dett, 21, of Lancaster, attempted to pass the Currie auto and the vehicles collided. The Currie car careened down the street and hit a parked auto belonging to Gerald L. Hanley, 563 N. Pickaway St.

Lloyd Gilpen, 20; Vickie Hitch, 18 and Chester Ditty, 3 months, all passengers in the Dett auto, were taken to Berger Hospital for treatment of injuries suffered in the mishap.

City patrolman Larry Jirles cited Dett for improper passing.

Laurelville Man Pinned In Wreckage Of Accident

Gene K. Arledge, 17, Route 2, Laurelville, is listed in "fair" condition Monday morning in Grant Hospital, Columbus, following treatment for injuries he suffered in a one-car accident 2:05 a.m. Sunday.

According to Pickaway County Sheriff's Deputy J. Phillip Brown, investigating officer, Arledge was driving southwest on Route 159, 8 1/2 miles southeast of the city in Saltcreek Twp., when he drove off the right side of the road at the intersection of the Circleville Tarlton Road.

He traveled 162 feet on the right side of the road, and returned to the paved surface where he slid broadside 48 feet.

The car then went off the left side of the road, struck a fence owned by Arnold Reichelderfer, and flipped three or four times before coming to rest in a field.

Arledge was trapped under the trunk lid of the car.

He suffered most serious of his injuries when gasoline from the car dripped on him while he was pinned beneath it.

He is being treated for burns from the gasoline over most of his body, a fractured right leg, and lacerations to his right hip, eyebrow, scalp and a cut under his right eye.

His car was a total loss.

The accident is still under investigation by Brown.

Dock Workers Back On Jobs

NEW YORK (AP) — Complying with court orders, dockworkers at struck East and Gulf Coast ports returned to work today for the first time since Oct. 1.

"It was rough," said a longshoreman in vanguard of 80 men at Manhattan's West Side docks who reported to unload Caribbean cruise ships. The Port of New York has 18,000 longshoremen they had not worked for 58 days.

In Baltimore, about 400 of 3,000 dockworkers were given work orders, mainly to prepare vessels for cargo handling.

In Mobile, Ala., a major Gulf of Mexico port, longshoremen continued to stream back to their jobs. The return to work began these last Saturday.

Dockworkers were reported back on the job in ports from Portland, Maine, to Houston, Tex., although some harbors had no ships and thus no immediate work.

Boston, Hampton Roads, Va., and all Florida ports were reported fully manned.

In Philadelphia, longshoremen came back after a 15-day absence. They had struck Oct. 15, returned under a local court order 27 days later then walked off the job again Nov. 14 following expiration of the wage-price freeze.

Savannah, Ga., and New Orleans also were among ports that already had resumed work under earlier injunctions.

Proxmire Says

(Continued from Page 1)
Proxmire said he would offer an amendment to knock out the year's extension.

He noted that present authority runs through next April 30 and said Congress should wait to see how Phase 2 functions before granting an extension.

But Sen. John Sparkman, D-Ala., Banking Committee chairman and floor manager for the bill, said he doubted Congress would want to grapple with such a politically touchy issue in 1972, a national election year.

Proxmire said he also would have amendments to exempt from the wage and price controls businesses with \$50 million or less annual sales, unions with 1,000 or fewer members, and state and local government employees.

Sen. Alan Crasto, D-Calif., announced he will propose an amendment to exempt press, broadcast and other media from the controls. He said including them could lead to "economic censorship."

Sen. Charles McC. Mathias, R-Md., said he would seek to add to the bill a provision giving federal employees a 5.5 per cent pay raise effective Jan. 1. Nixon has ordered that pay hikes for these employees be deferred to July 1 next year.

Other provisions of the bill as approved by the Senate committee would:

—Authorize consumers to sue for treble damages if they were charged prices which violated the law.

—Require Senate confirmation of future members of the Pay and Price boards.

—Exempt from pay controls workers earning less than the poverty level—\$4,000 a year for a family of four.

The section of the bill on retroactive pay was adopted unanimously by the banking panel. It would grant pay raises negotiated prior to the Aug. 15 freeze so long as these were not "unreasonably inconsistent" with the 5.5 per cent guideline established by the Pay Board.

The House Banking Committee has approved a similar retroactivity provision. It resumes work on its measure tomorrow.

Telephone Rate Increase Announced For County

General Telephone Co. of Ohio announced its Aug. 17 rate order — delayed by 90-day federal price-wage freeze — is being put into effect retroactive to Nov. 15.

The action follows a go-ahead the company received from the Public Utilities Commission of Ohio. The PUCO indicated the increase is within the guidelines set by the Price Commission.

The increase allows the company almost \$4.7 million, or a 7.59 per cent boost in total annual revenues. It had been okayed by the PUCO two days after President Nixon announced Phase I of his economic program.

Appeals Court To Convene In Circleville

Seven cases have been named for hearing Thursday when the Fourth District Court of Appeals convenes in Pickaway County.

Presiding Judge Homer E. Abele of McArthur and Judges Earl E. Stephenson of Portsmouth and Gordon B. Gray of Athens will be making the autumn visit of the Appeals Court to Pickaway County.

They are scheduled to review seven cases heard or tried in Pickaway County courts and in which the local decision is being appealed. These cases may have been matters in the Common Pleas, Probate, Juvenile, Municipal Court matters, either civil or criminal.

Five are criminal matters in which the State of Ohio vs. Robert E. Hudnell, Charles A. Nickell, Keith Donald Fletcher, Robert G. Conley and Robert Albert Reese.

A probate matter is also on the docket in the estate of Ralph W. Smith vs. Normal C. Hartley. Action for money as damages against an attorney in a contested will incident is the basis for the suit filed by Marvin Swackhammer and other descendants of the late M. E. Swackhammer vs. Attorney E. —Require Senate confirmation of future members of the Pay and Price boards.

—Exempt from pay controls workers earning less than the poverty level—\$4,000 a year for a family of four.

The section of the bill on retroactive pay was adopted unanimously by the banking panel. It would grant pay raises negotiated prior to the Aug. 15 freeze so long as these were not "unreasonably inconsistent" with the 5.5 per cent guideline established by the Pay Board.

The House Banking Committee has approved a similar retroactivity provision. It resumes work on its measure tomorrow.

Telephone Rate Increase Announced For County

General Telephone Co. of Ohio announced its Aug. 17 rate order — delayed by 90 day federal price-wage freeze — is being put into effect retroactive to Nov. 16.

The action follows a go-ahead the company received from the Public Utilities Commission of Ohio. The PUCO indicated the increase is within the guidelines set by the Price Commission.

The increase allows the company almost \$4.7 million, or a 7.59 per cent boost in total annual revenues. It had been okayed by the PUCO two days after President Nixon an-

Appeals Court To Convene In Circleville

Seven cases have been named for hearing Thursday when the Fourth District Court of Appeals convenes in Pickaway County.

Presiding Judge Homer E. Abele of McArthur and Judges Earl E. Stephenson of Portsmouth and Gordon B. Gray of Athens will be making the autumn visit of the Appeals Court to Pickaway County.

They are scheduled to review seven cases heard or tried in Hickaway County courts and in which the local decision is being appealed. These cases may have been matters in the Common Pleas, Probate, Juvenile, Municipal Court matters, either civil or criminal.

Five are criminal matters in which the State of Ohio vs Robert E. Hudnell, Charles A. Nickell, Keith Donald Fletcher, Robert G. Conley and Robert Albert Reese.

A probable matter is also on the docket in the estate of Ralph W. Smith vs Normal C. Hartley. Action for money as damages against an attorney in a contested will incident is the basis for the suit filed by Marvin Swackhammer and other descendants of the late M. E. Swackhammer vs Attorney E. A. Smith.

The Fourth District Court of Appeals serves 15 Southern Ohio counties, including Pickaway.

Stock List Posts Gain

NEW YORK (AP) —Stock market prices eased off somewhat but held onto heavy gains in today's very active trading as investor optimism about an international monetary settlement grew.

The noon Dow Jones average of 30 industrial stocks rose 10.07 to 826.66. Earlier it was ahead almost 15 points.

Advances held a 9-to-1 lead over declines on the New York Stock Exchange.

"Today's action was a follow-through of Friday's surge, and it is all based on growing optimism that the Group of 10 meetings in Rome will bring some settlement of the international monetary situation," said John Smith, an analyst at Fehnscock & Co.

Area Farmers To Receive Corn Awards

Ronald List, Route 1, and Bruce Stevenson Jr., Route 2 have been named to receive special awards for their excellence in corn growing.

Announced by the producers of Funk's G-Hybrids, the awards are in recognition of their production of high corn yields.

List recorded a yield of 157.2 bushels per acre of G-4455 and Stevenson a yield of 137.3 bushels per acre of G-4360.

Yields gained by these farmers are being entered in the nationwide record book of Project: 200, a high yield corn project aimed at increasing yields and per acre profits.

Under Project: 200 rules, a minimum of two acres must be machine harvested from not less than four adjacent rows running the full length of the field, shelled and converted to No. 2 corn. All figures must be validated by a disinterested witness.

Gap Between Rich And Poor Disastrous For Mexico

By CHARLES GREEN
Associated Press Writer
MEXICO CITY (AP) —President Luis Echeverria, entering his second year as leader of the Mexican people, is beset on all sides by problems so huge they forecast basic structural changes in every phase of life.

Many of the problems the 49-year-old president faces are natural in any rapidly developing nation. Some are especially Mexican; these are giving him the most trouble.

If Echeverria can find solu-

tions to even half those problems before his six-year term ends he will become one of the greatest leaders in Mexican history. Otherwise his countrymen will write him off as another politician who made a lot of fancy talk.

The problems enter all phases of Mexican life. They include high unemployment and a widening gap between the wealth of few and the poverty of many, as well as corruption, fear and oppression.

The president, who finishes his first year Tuesday, brought some of his difficulties on himself by facing things previous presidents ignored or fostered. He has created enemies within his own party, alienated some businessmen, scared foreign investors and increased distrust from extremist while moving the Mexican government steadily to the left of center.

As many see it, the president has a solid foundation on which to stand while he tries to push Mexico toward the social, political and economic balance he seeks. For almost half a century this foundation has made Mexico look like a stable, growing beacon for the underdeveloped world. The growth of its gross national product over the past four decades has been surpassed by only two or three nations in the world. For 15 consecutive years that rate of increase has been at least 6 per cent. Last year it topped 7 per cent for the second time.

U.S. investment has poured into the country. The Bank of Mexico estimates there is \$2.04 billion in direct, private U.S. investment in Mexico. The U.S. Embassy believes 75,000 Americans live in the country. Millions more cross the 2,013-mile border each year to sample the taste and culture of Mexico.

First-time tourists are surprised to find Mexico City a metropolis of almost eight million people. They see hundreds of thousands of cars jamming the capital's wide boulevards and narrow 17th century streets. They sleep in luxurious hotels and dine in restaurants which can hold their own with almost any in the world.

But there is a different Mexico, where poverty is a way of life. It is a Mexico where 40 per cent of the homes have one room.

The gap between rich and poor has become a major disaster in the Mexican economy. Echeverria is dedicating much of his energy and efforts to this problem. And these efforts are creating problems for him among those who have controlled the nation's wealth.

As Mexico emphasized its industrial growth the government gave special advantage to the captains of commerce. Low

taxes, protectionism, low wages and tame unions produced high profits and heavy investment.

While holding the door open for business, and thereby creating an upper-class elite, Mexico did less for those on the bottom of the pile than many other major Latin-American countries.

To force a redistribution of the country's resources, Echeverria has started measures the business community views as overly drastic. He reworked the tax law to increase revenue from corporations, pushed through a 10 per cent luxury tax, started taxing all capital gains, reduced depreciation writeoffs and put more teeth in laws governing personal income tax.

He has started rural irrigation and modernization plans and has other plans which his aides feel will give the lower

classes a bigger share in national income.

The country has been a leader in agriculture reform. Millions of Mexicans receive benefits from a forward-looking social security-medical care program. Mexico has been a leader in labor legislation and public education.

Agriculture reform has not solved the country's rural problems. Hundreds of thousands of people till land so marginal they cannot properly feed themselves, much less produce a cash crop.

Mexico's revolution was basically an agrarian revolution. Yet a tiny percentage of farms, large holdings still in private hands, account for more than half the farm produce.

More than a third of the Mexican work force tills the land. For all but a few the income is

marginal, the existence almost subhuman. A person living in direst poverty in the United States would be considered wealthy in some parts of rural Mexico. There almost 13 million people have a per capital income of \$2 a day. Almost half a million exist on 16 cents a day.

The growth of its gross national product over the past four decades has been surpassed by only two or three nations in the world. For 15 consecutive years that rate of increase has been at least 6 per cent. Last year it topped 7 per cent for the second time.

U.S. investment has poured into the country. The Bank of Mexico estimates there is \$2.04 billion in direct, private U.S. investment in Mexico. The U.S. Embassy believes 75,000 Americans live in the country. Millions more cross the 2,013-mile border each year to sample the taste and culture of Mexico.

First-time tourists are surprised to find Mexico City a metropolis of almost eight million people. They see hundreds of thousands of cars jamming the capital's wide boulevards and narrow 17th century streets. They sleep in luxurious hotels and dine in restaurants which can hold their own with almost any in the world.

Mrs. Georgia Sweet — 869-2462

Mrs. John Musselman was admitted to Doctor's West hospital on Friday, Nov. 12 where she is still a patient at this time, undergoing tests and observation. She is feeling some better, and hopes to be able to come home soon. Please send cards and letters to make her stay more pleasant.

Richard Adams of Clark's Lake was elected Master of Mt. Sterling Lodge Nov. 26. Other officers from there are David Musselman, Lou West, Jay Cahall, and Robert H. Vincent. There will be an open installation of officers at 8 p.m. on Dec. 11, at the Mt. Sterling Lodge.

Mrs. Thelma Doye of Huntington, W. Va., spent Tuesday through Saturday with Mrs. Charles Nance returning home on Saturday.

Mr. Clare Clark of Clark Lake is very grateful to those who supported him in the recent election for school board. Also he is appreciative of those who helped to pass the 5.5 mill operating levy renewal. Effective on January 1, 1972, the new Westfall school district board members are Bruce Stevenson, Jackson; James Dean, Williamsport, and Cook Metzger of Williamsport. Continuing members are Mr. Bush, of Williamsport and Jack Lett of Derby. A new school board president will be elected soon to replace Richard Redman who was defeated along with Mr. Clark and Mr. Keller.

There has been a change in the time of the Turkey Shoot at Clark's Lake. It will be continued for two more weeks, Nov. 28, and Dec. 5 at noon.

Birthdays this week include Debbie Wilkey, William Grigsby, Sue Faber, Kenny Smith, Nov. 21; Larry McPherson, Charles Wickham, and Keith Edward Caudill (1 yr.), Nov. 22; Jack Scribner, Sue Davis, Ross Staley, Joyce Stevens, Jonda McCloud, Nov. 23; Bennie Spradlin (14), Mark Fyffe, Nov. 24; Jane Vance, Orville Shannon, Nov. 26; Walter Garland, Nov. 27.

Congratulations to Mr. and Mrs. Jay Cahall of Clark's Lake who are proud parents of a son, Kyle Andrew, 9 lb., 3 ounces, born Oct. 20th. It was just brought to my attention.

Other birthdays include Sheila Stires, Jeannie Cahall, Oron Lawless, Pauline Lawless, Philip McDonough, Elias Mather, Leon Schleicher, Ruth Davis, Paul Franklin, Glen Franklin, John Scribner, Marilyn Adkins, Ladonna Ollem, Vivian Croft, Jewel Dewees, Millie Cornell, Larry Adams, Casey Neal, Tom Reiser, Harvey Hafler.

There will be a spaghetti dinner on Nov. 27 from 4-7 p.m. at the Clark's Lake Community Building. Bring your own silverware.

November anniversaries: Mr. and Mrs. Eldon Malon, Mr. and Mrs. Norman Myers, Mr. and Mrs. Oren Lawless, Mr. and Mrs. Philip McDonough, Mr. and Mrs. Les Windon, Mr. and Mrs. Paul Reese, Mr. and Mrs. Howard Tucker, Mr. and Mrs. Berkeley Massie, Mr. and Mrs. Danny Caudill, Mr. and Mrs. Tom Harber, and Mr. and Mrs. Bob Bateman.

The Southwest Church of the Nazarene will be having a Thanksgiving Eve service at 7:30 on Wednesday evening. Communion will be served.

Bingo fans will enjoy the games which are being held at the Clark's Lake Community Building every other Saturday.

The gap between rich and poor has become a major disaster in the Mexican economy. Echeverria is dedicating much of his energy and efforts to this problem. And these efforts are creating problems for him among those who have controlled the nation's wealth.

As Mexico emphasized its industrial growth the government gave special advantage to the captains of commerce. Low

taxes, protectionism, low wages and tame unions produced high profits and heavy investment.

While holding the door open for business, and thereby creating an upper-class elite, Mexico did less for those on the bottom of the pile than many other major Latin-American countries.

To force a redistribution of the country's resources, Echeverria has started measures the business community views as overly drastic. He reworked the tax law to increase revenue from corporations, pushed through a 10 per cent luxury tax, started taxing all capital gains, reduced depreciation writeoffs and put more teeth in laws governing personal income tax.

Electrical Power Low
WASHINGTON (AP) — About a third of the nation's utility systems will fall below the normal electrical-power-reserve level this winter, although the country generally has enough power to meet the season's demands, the Federal Power Commission says.

Male Minority Shrinks

Mortality rates — like other population trends — change from time to time. It is important to keep tabs on the changes and analyze their meanings, both for public health purposes and for wider social implications.

The latest federal study of death rates in the United States shows an increase in deaths among the male population — particularly young males — while the mortality rate for females declines or stabilizes. The change during the 1960s, in some instances, was dramatic.

Between 1963 and 1968 the death rate for white males in the 15-19 age group rose 21 per cent. It was up 35 per cent for non-whites of the same ages. All white males up to age 45 showed increases in the death rate, as did non-white males up to age 65. Females in many age groups during this same

period appeared to be lowering their mortality rates. Combat deaths were excluded.

Factors involved in the growing death rate among males, particularly younger males, were automobile accidents, suicides, other violent deaths and other types of accidents. Left unexplained in the study by the National Center for Health Statistics in Washington was the part played by drugs during a period when drug usage came into national prominence.

One immediate result noted in the statistics was an increase in the gap between males and females. There are now about 95 males for every 100 females, the widest gap recorded since 1910. If that imbalance continues to grow, profound changes are likely in the social, economic and medical aspects of the population of the future.

Asia Tension Builds

It would require a flip of the coin to decide which potential conflict — India-Pakistan or Israel-Arab — holds the greatest danger for the world. Both situations obviously have deteriorated in recent weeks. Either could break out in all-out open hostilities.

But the India-Pakistan conflict appears to hold the edge, if only because actual hostilities between the two have been developing faster. At least three other factors not present in the Israel-Arab dispute also contribute to the prospects for increased friction.

Both India and Pakistan are among the largest countries in the world, they are on opposite ends of a traditional

Muslim-Hindu dispute which goes back generations.

And both the Soviets and Red Chinese have been supplying their favorites with military aid in a test of power between Moscow and Peking.

Those are conditions with powerful possibilities for mischief. Added to these, of course, are the nine million refugees from East Pakistan who have fled into India, creating huge economic and social problems.

A safety valve is needed to relieve some of this pressure. None appears on the horizon, least of all that which should be the most likely source — the United Nations.

Canes Have New Use

Although they have not caught on universally as yet, in some cities around the world walking canes are staging a comeback. Fancy ones, plain ones, tooled and jeweled ones — all kinds are selling well in many stores.

Just so long as they are substantial and are well balanced for striking. For these canes are not used for walking. At least, that is not the reason for their return to prominence.

An increase in muggings, particularly of older people, is the reason given by many stores for the walking cane's sudden return to popularity.

It is doubtful that such a weapon in the hands of an older person being attacked by a young thug would be of much help, but even the feeling of security is not to be ignored in an age when crime knows no bounds.

Speaking Of Your Health

By Lester L. Coleman, M.D.

I am not sure, but I think that one of my children is color blind.

How can he be accurately tested to find out more about his confusion of colors?

Mrs. V. E., Ky.

Dear Mrs. E.:
The most complex explanations have been expounded for the color mechanism. New theories seem to come and go.

Rarely is there a person who sees absolutely no color at all. Most cases of color blindness are those who see colors but interpret them differently from people with normal color vision.

A great many tests have been devised by which people are tested for color vision. One of these, the FM 100-hue test, is used to score normal color vision.

Simple and complex color vision tests are part of every complete eye examination today.

It is particularly important that every pre-school child should be tested specifically for color vision to give him his greatest chance at proper educational advancement.

By means of color vision studies it is sometimes possible to pick up other eye problems that might otherwise escape detection.

You once wrote about a medallion that can be worn by people who have epilepsy.

Where can these be purchased?

Mrs. H. D. L., Vt.

Dear Mrs. L.:
Medallions have been specially created by the American Medical Association in Chicago, and by the Medic Alert Foundation in Turlock, Calif.

These medallions are distinctive and readily recognized. On them is inscribed the particular illness that the wearer may have.

Epilepsy is but one of many of them. The wearer may have diabetes, or may be allergic to penicillin.

The purpose of the medallion worn around the neck, the ankle or the wrist is to call immediate attention to any unusual medical problem that exists.

Often such rapid recognition can be of life-saving significance.

Children must be taught early that washing the hands is an essential routine after going to the bathroom and always before eating.

Legislation insists that all food handlers must wash their hands before preparing food.

The process of cleanliness

must be a continuous one to discourage disease carrying germs.

Tycoons Aid Education

By JOHN CHAMBERLAIN

"Convergence," in the totalitarian political realm, doesn't work out. That has been a m p l y demonstrated in Czechoslovakia, where the attempt to soften Communist rigidity by the limited introduction of free-market principles was interpreted as "counter-revolution" and brought in the Soviet tanks. In the "mixed" system of the United States, however, there can be all sorts of convergences — and they don't necessarily have to go in the direction of aggrandizing the powers and responsibilities of the State.

Some curious switches are happening in higher education. The private colleges are complaining they can't do without some government support, which many of them prefer to take as subsidies for specialized research. There is also the push for indirect aid in the form of tax credits for tuition or state-issued educational "vouchers." Only a handful of private colleges — Rockford in Illinois and Hillsdale in Michigan are examples — make a virtue of refusing any government subsidies whatsoever.

While the private colleges are "converging" toward tax-subsidized status, there is a counter movement in public higher education. For one spectacular example, a self-made tycoon named Roy J. Carver, who has made millions by his introduction to America of the German "Bandag" patent for the "cold" retreading of tires, handed \$3,500,000 in his company's stock to the University of Iowa, a state-supported institution. Unlike most self-made tycoons, who normally wish to see their gifts enshrined in buildings (the Widener Library, the Harkness Memorial Quadrangle, et cetera), Mr. Carver gave his money with no strings attached. He trusts Iowa as a competent, "going" institution.

I talked with Darrell D. Wyrick, executive director of the University of Iowa Foundation, the other day, and he was chortling at the nature of the Carver gift. It will be spread around to support a variety of projects — aid to needy students, endowment of professorships, "seed money" for a special President's Academic Development Fund, an addition to the University's Museum of Art, the development by the college of medicine of a model for a pioneering community health program, the furnishing of a performing arts hall, and, finally, the probable resurfacing of the Iowa Stadium with artificial turf.

The only possible drawback is that the gift might make the State legislature think it can cut down on funds voted for public higher education, but, since legislatures in 1971 have been in a penurious mood anyway, the gains from a big private donation far outweigh any possible loss in public revenue.

One swallow does not make a summer, and if Mr. Carver's

donation were the only one of its kind my theory of educational "convergence" would break down. However, a study of voluntary support for public higher education prepared by the G. A. Brakeley and Co., Inc., shows a developing trend in the direction of private help for public institutions.

In 1968-69, the University of Texas system received \$27,000,000 from private sources. The University of California (all campuses) got \$25.5 million. The University of Michigan was in third place with \$21 million. Other "Big Ten" state universities — Wisconsin, Minnesota, Illinois, and Indiana — did very well. The grand total of private support for

public education in the U.S. came to some \$272 million.

Corporations gave 23.1 per cent of this money; foundations accounted for 28.5 per cent. The alumni kicked in with 16 per cent, and "other individuals and groups" gave 32.4 per cent. Naturally, the figure for voluntary giving to private colleges continues to outpace citizen donations to public higher education. However, the lines of demarcation are breaking down.

In a free country it is a good thing for public education to have varied sources of support. The long arm of the state can hardly exercise dictatorial control when private citizens endow some of the professorships.

Views on Television

By CYNTHIA LOWERY
AP Television-Radio Writer

NEW YORK (AP) — CBS' weekly "60 Minutes" and NBC's monthly "Chronolog" are network television's only surviving actuality programs on a regular schedule. Comparisons are inevitable, particularly since both use a "magazine format"—the television term for a single program containing an assortment of unrelated features.

"60 Minutes," which has been kicked around the schedule like a pigskin during the height of the football season, was back in its regular late Sunday afternoon spot this week with a lively hour. There was a second installment in its expose of techniques of the automotive repair gyps, a sketch of Treasury Secretary John B. Connally, and an interview with a clergyman who had recently visited Red China, the weakest item in the hour.

"Chronolog," which goes on for two hours in the course of its monthly appearance, has a tendency to be more ponderous and to linger too long on segments it considers important or unusual. On Friday night the program devoted much time to the conflict in Pakistan, which was helpful, and to showing the shocking suffering among refugees. Film taken in refugee camps showed the starving, the sick and the dead.

There was also film of a university experiment on the psychology of imprisonment, with student volunteers playing the part of prisoners and guards. Interviews made later, much more than the pictures taken by concealed cameras, indicated that some of the "guards" became bullies; some "prisoners" were filled with hate. Both groups knew the environment was simulated.

The experiment probably was significant. As a visual feature, however, it failed to make points.

Neither series can be counted as a successful commercial

television project. Both inevitably are somewhere near the bottom of the ratings no matter how much effort and talent are invested in them. The mass public which watches television demonstrates consistently that it seeks simple entertainment from its sets.

ABC's Sunday night movie was a new made-for-TV feature, a particularly well-done science fiction thriller, "Earth II." The story, set in a new nation established in space, centered on a space accident involving a nuclear warhead. It was no better or no worse than all those bombast stories where the lethal weapon is disarmed in the nick of time.

The stars of this two-hour show were the special effects, the expanse and drama of space, and the simulation of machines that men take into the void. They and camera tricks made the efforts of earlier television shows like "Star Trek" and "Lost in Space" seem like crude cartoons.

Housing Patterns

Rapped By Speaker

COLUMBUS, Ohio (AP) — Pennsylvania Secretary of State Delores Tucker says America's housing pattern is "racist and exploitive" and responsible for "the growing polarization" of blacks and whites.

"Housing is the only commodity that cannot freely be purchased in America today," Mrs. Tucker told a NAACP conference Saturday.

Fertility Rates Noted

WASHINGTON (AP) — The Census Bureau says it has compiled figures on the fertility rates of various ethnic groups for the first time and found black and Mexican-American women have more children than women in other groups.

According To Boyle

By HAL BOYLE

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

The older you get the more likely you are to need a hospital. One out of four people over 65 is hospitalized each year, compared with one out of seven for people between the ages of 45 and 64.

Why driving and drinking don't mix: taking just three drinks before driving will increase your chances of having an accident by one thousand per cent.

Buddhist monks in Thailand lead lives of barest poverty. Their only possessions are an alms bowl for begging, a sling to carry it, and a set of saffron robes. The robes are traditionally marked only with a circle not to be larger "than the pupil of the eye of a peacock."

Feel like going swimming? Members of the Walrus Club in Leningrad are pledged to take a swim in the Neva River every day of the year. They plunge in even when the temperature dips to 20 degrees below zero and a channel has to be hacked in the ice.

When migrating, male red-wing blackbirds make a stag party of it by flying ahead first. The females trail after them a few weeks later.

Quotable notables: "A man

never sees all that his mother has been to him until it is too late to let her know that he sees it."—William Dean Howells.

One of the nation's most unusual Christmas parties will be held here by The Associated Blind. A blind Santa Claus will distribute to blind children gifts on which the recipients' name will be inscribed in Braille.

Busy: No busy beaver or bee keeps busier than a busy woodpecker. These little feathered hammerheads drill holes in trees and stuff them with acorns they wish to hoard.

Woodpeckers have drilled and filled with acorns as many as 30,000 holes in a single tree.

Worth remembering: "Never trust a woman who tells her real age. A woman who would

tell that would tell anything." Items worth forgetting: The largest railroad shipment of matches in the history of the United States—its 20 carloads contained 810 million matches—went from Wheeling, W.Va., to Memphis, Tenn. on Aug. 26, 1933. So far as is known, not a match was lost.

Folklore: Servant girls break more dishes on Monday than any other day. Tuesday is the only day of the week on which it is unlikely to meet a left-handed person the first thing in the morning. Wednesday is a lucky day to be born on but a bad day to begin a journey. Thursday is a good day to complete a difficult task.

It was Oliver Wendell Holmes Jr., who observed, "Life is a great bundle of little things."

Factors involved in the growing death rate among males, particularly younger males, were automobile accidents, suicides, other violent deaths and other types of accidents. Left unexplained in the study by the National Center for Health Statistics in Washington was the part played by drugs during a period when drug usage came into national prominence.

One immediate result noted in the statistics was an increase in the gap between males and females. There are now about 95 males for every 100 females, the widest gap recorded since 1910. If that imbalance continues to grow, profound changes are likely in the social, economic and medical aspects of the population of the future.

Asia Tension Builds

It would require a flip of the coin to decide which potential conflict — India-Pakistan or Israel - Arab — holds the greatest danger for the world. Both situations obviously have deteriorated in recent weeks. Either could break out in all-out open hostilities.

But the India-Pakistan conflict appears to hold the edge, if only because actual hostilities between the two have been developing faster. At least three other factors not present in the Israel-Arab dispute also contribute to the prospects for increased friction.

Both India and Pakistan are among the largest countries in the world, they are on opposite ends of a traditional

Muslim - Hindu dispute which goes back generations.

And both the Soviets and Red Chinese have been supplying their favorites with military aid in a test of power between Moscow and Peking.

Those are conditions with powerful possibilities for mischief. Added to these, of course, are the nine million refugees from East Pakistan who have fled into India, creating huge economic and social problems.

A safety valve is needed to relieve some of this pressure. None appears on the horizon, least of all that which should be the most likely source — the United Nations.

Canes Have New Use

Although they have not caught on universally as yet, in some cities around the world walking canes are staging a comeback. Fancy ones, plain ones, tooled and jeweled ones — all kinds are selling well in many stores.

Just so long as they are substantial and are well balanced for striking. For these canes are not used for walking. At least, that is not the reason for their return to prominence.

An increase in muggings, particularly of older people, is the reason given by many stores for the walking cane's sudden return to popularity.

It is doubtful that such a weapon in the hands of an older person being attacked by a young thug would be of much help, but even the feeling of security is not to be ignored in an age when crime knows no bounds.

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail: :

Why driving and drinking don't mix: taking just three drinks before driving will increase your chances of having an accident by one thousand per cent.

Buddhist monks in Thailand lead lives of barest poverty. Their only possessions are an alms bowl for begging, a sling to carry it, and a set of saffron robes. The robes are traditionally marked only with a circle not to be larger "than the pupil of the eye of a peacock."

Items worth forgetting: The largest railroad shipment of matches in the history of the United States—its 20 carloads contained 810 million matches—went from Wheeling, W.Va., to Memphis, Tenn., on Aug. 26, 1933. So far as is known, not a match was lost.

Speaking Of Your Health

By Lester L. Coleman, M.D.

I am not sure, but I think that one of my children is color blind.

How can he be accurately tested to find out more about his confusion of colors?

Mrs. V. E., Ky.

Dear Mrs. E.:

The most complex explanations have been expounded for the color mechanism. New theories seem to come and go.

Rarely is there a person who sees absolutely no color at all. Most cases of color blindness are those who see colors but interpret them differently from people with normal color vision.

A great many tests have been devised by which people are tested for color vision. One of these, the FM 100-hue test, is used to score normal color vision.

Simple and complex color vision tests are part of every complete eye examination today.

It is particularly important that every pre-school child should be tested specifically for color vision to give him his greatest chance at proper educational advancement.

By means of color vision studies it is sometimes possible to pick up other eye problems that might otherwise escape detection.

You once wrote about a medallion that can be worn by people who have epilepsy. Where can these be purchased?

Mrs. H. D. L., Vt.

Dear Mrs. L.:

Medallions have been specially created by the American Medical Association in Chicago, and by the Medic Alert Foundation in Turlock, Calif.

These medallions are distinctive and readily recognized. On them is inscribed the particular illness that the wearer may have.

Epilepsy is but one of many of them. The wearer may have diabetes, or may be allergic to penicillin.

The purpose of the medallion worn around the neck, the ankle or the wrist is to call immediate attention to any unusual medical problem that exists.

Often such rapid recognition can be of life-saving significance.

Tycoons Aid Education

By JOHN CHAMBERLAIN

"Convergence," in the totalitarian political realm, doesn't work out. That has been amply demonstrated in Czechoslovakia, where the attempt to soften Communist rigidity by the limited introduction of free-market principles was interpreted as "counter-revolution" and brought in the Soviet tanks. In the "mixed" system of the United States, however, there can be all sorts of convergences — and they don't necessarily have to go in the direction of aggrandizing the powers and responsibilities of the State.

Some curious switches are happening in higher education. The private colleges are complaining they can't do without some government support, which many of them prefer to take as subsidies for specialized research. There is also the push for indirect aid in the form of tax credits for tuition or state-issued educational "vouchers." Only a handful of private colleges — Rockford in Illinois and Hillsdale in Michigan are examples — make a virtue of refusing any government subsidies whatsoever.

While the private colleges are "converging" toward tax-supported status, there is a counter movement in public higher education. For one spectacular example, a self-made tycoon named Roy J. Carver, who has made millions by his introduction to America of the German "Bandag" patent for the "cold" retreading of tires, handed \$3,500,000 in his company's stock to the University of Iowa, a state-supported institution. Unlike most self-made tycoons, who normally wish to see their gifts enshrined in buildings (the Widener Library, the Harkness Memorial Quadrangle, et cetera), Mr. Carver gave his money with no strings attached. He trusts Iowa as a competent, "going" institution.

I talked with Darrell D. Wyrick, executive director of the University of Iowa Foundation, the other day, and he was chortling at the nature of the Carver gift. It will be spread around to support a variety of projects — aid to needy students, endowment of professorships, "seed money" for a special President's Academic Development Fund, an addition to the University's Museum of Art, the development by the college of medicine of a model for a pioneering community health program, the furnishing of a performing arts hall, and, finally, the probable resurfacing of the Iowa Stadium with artificial turf.

The only possible drawback is that the gift might make the State legislature think it can cut down on funds voted for public higher education, but, since legislatures in 1971 have been in a penurious mood anyway, the gains from a big private donation far outweigh any possible loss in public revenue.

One swallow does not make a summer, and if Mr. Carver's

donation were the only one of its kind my theory of educational "convergence" would break down. However, a study of voluntary support for public higher education prepared by the G. A. Brakeley and Co., Inc., shows a developing trend in the direction of private help for public institutions.

In 1968-69, the University of Texas system received \$27,000,000 from private sources. The University of California (all campuses) got \$25.5 million. The University of Michigan was in third place with \$21 million. Other "Big Ten" state universities — Wisconsin, Minnesota, Illinois, and Indiana — did very well. The grand total of private support for

public education in the U.S. came to some \$272 million.

Corporations gave 23.1 per cent of this money; foundations accounted for 28.5 per cent. The alumni kicked in with 16 per cent, and "other individuals and groups" gave 32.4 per cent. Naturally, the figure for voluntary giving to private colleges continues to outpace citizen donations to public higher education. However, the lines of demarcation are breaking down.

In a free country it is a good thing for public education to have varied sources of support. The long arm of the state can hardly exercise dictatorial control when private citizens endow some of the professorships.

Views on Television

By CYNTHIA LOWERY
AP Television-Radio Writer

NEW YORK (AP) — CBS' weekly "60 Minutes" and NBC's monthly "Chronology" are network television's only surviving actuality programs on a regular schedule. Comparisons are inevitable, particularly since both use a "magazine format"—the television term for a single program containing an assortment of unrelated features.

"60 Minutes," which has been kicked around the schedule like a pigskin during the height of the football season, was back in its regular late Sunday afternoon spot this week with a lively hour. There was a second installment in its expose of techniques of the automotive repair gyps, a sketch of Treasury Secretary John B. Connally, and an interview with a clergyman who had recently visited Red China, the weakest item in the hour.

"Chronology," which goes on for two hours in the course of its monthly appearance, has a tendency to be more ponderous and to linger too long on segments it considers important or unusual. On Friday night the program devoted much time to the conflict in Pakistan, which was helpful, and to showing the shocking suffering among refugees. Film taken in refugee camps showed the starving, the sick and the dead.

There was also film of a university experiment on the psychology of imprisonment, with student volunteers playing the part of prisoners and guards. Interviews made later, much more than the pictures taken by concealed cameras, indicated that some of the "guards" became bullies; some "prisoners" were filled with hate. Both groups knew the environment was stimulated.

The experiment probably was significant. As a visual feature, however, it failed to make points.

Neither series can be counted as a successful commercial

television project. Both inevitably are somewhere near the bottom of the ratings no matter how much effort and talent are invested in them. The mass public which watches television demonstrates consistently that it seeks simple entertainment from its sets.

ABC's Sunday night movie was a new made-for-TV feature, a particularly well-done science fiction thriller, "Earth II." The story, set in a new nation established in space, centered on a space accident involving a nuclear warhead. It was no better or no worse than all those bombastic stories where the lethal weapon is disarmed in the nick of time.

The stars of this two-hour show were the special effects, the expanse and drama of space, and the simulation of machines that men take into the void. They and camera tricks made the efforts of earlier television shows like "Star Trek" and "Lost in Space" seem like crude cartoons.

Brother's Transplanted Kidney Saves Man's Life

A 44-year-old Williamsport man can't eat salt or pepper anymore, but he's really not complaining.

August 10, John Drummond received a kidney, transplanted from his brother Charles, as a last resort to stave off the fatal Bright's Disease that had killed his own kidneys, leaving them to operate at only a fourth of their normal capacity.

The trouble was discovered four years ago when John, donating blood, was told there was a problem. He was referred to his family doctor.

There, doctors noted the defect and told John that his right kidney was inoperable and the left one was operating "only in a supporting capacity."

BUT Drummond lived with his problem three years following its discovery, relying only on medication to kill the pain and ward off infection.

This spring, however, an industrial accident forced him to the doctor and treatment on a kidney dialysis machine.

What followed was five to six weeks of treatments at the University Hospital Clinic in Columbus.

Four kidney machines were used extensively — for six hour time periods — three times every two weeks to draw the waste from his body.

He also was subjected to regular blood tests and was forced to take infection-fighting medication almost daily.

Through all the treatments, John continued to lose strength until as a last resort, his 45-year-old brother was checked tentatively, to see if he could be a possible kidney donor.

THE tests checked, and Charles, of Chillicothe, volunteered to save his brother's life.

Under the direction of Dr. Ceribilli, the operation was performed four days after he entered the hospital. Three weeks and 131 get-well cards from his village friends later, John was home.

He still must take medication to insure the "new" kidney will cooperate with his body, but most of the extensive treatment is gone.

In fact, he started to work part time in November at his old job as parts manager of the Dunlop store in Williamsport, where he was worked for 25 years.

John was married to his wife,

Farm Labor Curbs Urged By Diocese

CINCINNATI (AP) — The Roman Catholic Archdiocese of Cincinnati has joined efforts to ban children under 14 from farm labor and restrict those from 14-16.

The 19-county, 525,000-member archdiocese announced Sunday it would join lobbying for the change in the federal law with the United Farm Workers Organization Commission AFL-CIO and the Cincinnati Citizens for United Farm Workers.

William Schumacher, archdiocesan director of social action, announced the program of cooperation with Rev. John Bank, director of the UFWOC in southern Ohio and Kentucky. Father Bank charged that some of the 800,000 children "exploited" in agriculture work in the 19-county archdiocese.

Posters will be distributed in all parishes depicting an undressed 10-year-old girl in Findlay, Ohio, picking tomatoes for her father for 67 cents an hour, Father Bank said.

He said the lobby would try to show that child labor in agriculture was "detrimental to a child's physical, psychological and educational growth."

He said the lobby would argue that earlier exclusions of agriculture from child labor laws was "indefensible favoritism at the expense of the child" toward farm owners.

The proposed bill, now in the House, would carry penalties of six month jail sentences and \$10,000 in fines for violations.

Plane Journey Delayed; Landing Made On Road

CINCINNATI (AP) — Two Army helicopter pilots, Vietnam veterans, planned to fly their small plane to Fort Bragg, N.C. today after setting down Saturday night on a city expressway.

Capt. Robert Bash, of Lynchburg, Ohio, and Warrant Officer William Schwab, of suburban Madeira, Ohio, were forced down when the engine of their light plane began icing. They were enroute to Cincinnati's Lunken Airport from Lynchburg, but were forced to choose the Cross-County Highway.

Police, unwilling to allow the plane to remain on the road until Sunday, provided an escort as the pilots taxied east along the expressway to suburban Blue Ash Airport.

Mrs. Linda Bash was also aboard the plane when it landed just ahead of a police cruiser. The plane ducked under a bridge and had to ride around a curve before stopping.

Normagene, April 2, 1951, or "pretty near April Fool's Day" as he likes to recall.

They have one daughter, 15-year-old Linda, a sophomore at Westfall High School.

Friends and neighbors of the Drummonds are planning to hold a benefit Smorgasbord Dec. 12 at the Westfall High School to try and lend some financial aid to the family.

WILLIAM A. BENNETT

William A. Bennett, formerly with The Second National Bank of Circleville and The First National Bank of Chillicothe, started a new position with BancOhio Corporation in Columbus on November 22. He will be working with P. A. Goldslager, comptroller, in accounting in the Treasurer's Office.

Before the transfer, Bennett had been working with First National in Chillicothe for two years while he learned all phases of the bank operation.

He began in banking with Second National in Circleville for a few months while he was studying for his bachelor of business administration degree from Ohio University.

Currently, Bennett is a member of the Circleville Elks Club, Masons, Trinity Lutheran Church of Circleville and the American Institute of Banking from which he holds a Pre-standard Certificate. The Circleville High School graduate is also a member of Delta Sigma Pi professional business fraternity.

The Second National Bank of Circleville and The First National Bank of Chillicothe are both affiliated with BancOhio Corporation, Ohio's largest multi-bank holding company.

Noted Authors' Paintings Shown

CHICAGO (AP) — Harriet Beecher Stowe and Robert Louis Stevenson are remembered as writers, but their creative talent extended beyond the printed word.

They could also paint.

An exhibition called "A Second Talent" at the Arts Club of Chicago explores this aspect of the creative lives of men and women known as writers.

Nearly 200 paintings and

drawings from collections in the United States and Stockholm, Sweden, make up the exhibition, which continues until the end of the year.

The show will not be seen elsewhere.

Rue Winterbotham Shaw, club president, said many of the lenders would not make the works available for a traveling show.

The watercolors of Marianne Moore, the American poet, are being shown for the first time anywhere in this exhibition.

Miss Moore's delicate picture of a single white flower is hauntingly beautiful, and her pictures of a lighthouse and a room with open door show her to be an accomplished watercolorist.

Another haunting picture is also by a poet, William Butler Yeats. His watercolor of the lake at Coole is delicate and exquisite.

The humor of Mark Twain is as apparent in his little-known draftsmanship as it is in his writings. One of his drawings is titled "Un-eyed dog." His drawing is primitive but delightful.

James Thurber's dual talents as writer and cartoonist are well known. In this show a group of 12 unpublished Thurber drawings is shown. Only two of them are signed.

Miss Stowe, who is remembered primarily for her novel "Uncle Tom's Cabin," also painted still-lives and landscapes. A magnificent owl painted in oil is one of two pictures by Miss Stowe that are on display.

Stevenson, prolific author of "Treasure Island," is represented by a watercolor of his home in Samoa.

D.H. Lawrence, the novelist, and E. E. Cummings, the poet, also had reputations as artists.

Mrs. Gilly Arraignment Set Today

WASHINGTON, Pa. (AP) — Annette Gilly, the only one of five defendants yet to enter a plea in the Yablonski family killings, was scheduled to be arraigned today before Washington County Court Judge Charles C. Sweet.

Mrs. Gilly's husband, Paul, 37, and her father, Silous Hudleston, 57, of LaFollette, Tenn., pleaded innocent last October.

Claude Vealey, 27, of Cleveland, pleaded guilty last June, and Aubran "Buddy" Martin, 23, also of Cleveland, the first of the five defendants to be tried, was convicted of first degree murder, and sentenced to death last month.

The judge deferred Mrs. Gilly's arraignment pending clarification of her legal representation.

The five are accused in the December 1969 slayings of United Mine Workers insurgent Joseph Yablonski, his wife and daughter.

Cleveland Atty. Gerald S. Gold had sought to represent both Gillys and did appear for the husband at his arraignment.

Judge Sweet, however, ruled there could be a possible conflict of interests and said Gold could represent either the husband or the wife, but not both.

Gold wrote the judge that though he took exception to the court's decision, he would abide by its order and elected "to represent Annette Gilly in her various cases."

Brother's Transplanted Kidney Saves Man's Life

A 44-year-old Williamsport man can't eat salt or pepper anymore, but he's really not complaining.

August 10, John Drummond received a kidney, transplanted from his brother Charles, as a last resort to stave off the fatal Bright's Disease that had riddled his own kidneys, leaving them to operate at only a fourth of their normal capacity.

The trouble was discovered four years ago when John, donating blood, was told there was a problem. He was referred to his family doctor.

There, doctors noted the defect and told John that his right kidney was inoperable and the left one was operating "only in a supporting capacity."

BUT Drummond lived with his problem three years following its discovery, relying only on medication to kill the pain and ward off infection.

This spring, however, an industrial accident forced him to the doctor and treatment on a kidney dialysis machine.

What followed was five to six weeks of treatments at the University Hospital Clinic in Columbus.

Four kidney machines were used extensively — for six hour time periods — three times every two weeks to draw the waste from his body.

He also was subjected to regular blood tests and was forced to take infection-fighting medication almost daily.

Through all the treatments, John continued to lose strength until as a last resort, his 45-year-old brother was checked tentatively, to see if he could be a possible kidney donor.

THE tests checked, and Charles, of Chillicothe, volunteered to save his brother's life.

Ashtabula Firemen Off

ASHTABULA, Ohio (AP) — Ashtabula's two fire stations were being manned by the captains and lieutenants today as a sick-call strike by firemen continued into its second day.

Meanwhile, representatives of the International Firemen's Association were to meet with Chief Charles Mosier, City Manager Edward Bonto and Council President Thomas Bocca to try to settle a dispute over pay and working conditions.

Some of the 31 firemen on the force picketed station as the sick call started Sunday. Chief Mosier said at least 26 of the 31 were participating in the work stoppage, leaving eight captains and lieutenants to man the stations.

No major fires were reported Sunday in this city of 25,000.

The chief said mutual agreements had been put in effect with surrounding communities to provide assistance if needed.

Under the direction of Dr. Ceribilli, the operation was performed four days after he entered the hospital. Three weeks and 131 get-well cards from his village friends later, John was home.

He still must take medication to insure the "new" kidney will cooperate with his body, but most of the extensive treatment is gone.

In fact, he started to work part time in November at his old job as parts manager of the Dunlop store in Williamsport, where he was worked for 25 years.

Farm Labor Curbs Urged By Diocese

CINCINNATI (AP) — The Roman Catholic Archdiocese of Cincinnati has joined efforts to ban children under 14 from farm labor and restrict those from 14-16.

The 19-county, 525,000-member archdiocese announced Sunday it would join lobbying for the change in the federal law with the United Farm Workers Organization Commission AFL-CIO and the Cincinnati Citizens for United Farm Workers.

William Schumacher, archdiocesan director of social action, announced the program of cooperation with Rev. John Bank, director of the UFWOC in southern Ohio and Kentucky. Father Bank charged that some of the 800,000 children "exploited" in agriculture work in the 19-county archdiocese.

Posters will be distributed in all parishes depicting an uneducated 10-year-old girl in Findlay, Ohio, picking tomatoes for her father for 67 cents an hour, Father Bank said.

He said the lobby would try to show that child labor in agriculture was "detrimental to a child's physical, psychological and educational growth."

He said the lobby would argue that earlier exclusions of agriculture from child labor laws was "indefensible favoritism at the expense of the child" toward farm owners.

The proposed bill, now in the House, would carry penalties of six month jail sentences and \$10,000 in fines for violations.

Plane Journey Delayed; Landing Made On Road

CINCINNATI (AP) — Two Army helicopter pilots, Vietnam veterans, planned to fly their small plane to Fort Bragg, N.C. today after setting down Saturday night on a city expressway.

Capt. Robert Bash, of Lynchburg, Ohio, and Warrant Officer William Schwab, of suburban Madeira, Ohio, were forced down when the engine of their light plane began icing. They were enroute to Cincinnati's Lunken Airport from Lynchburg, but were forced to choose the Cross-County Highway.

Police, unwilling to allow the plane to remain on the road until Sunday, provided an escort as the pilots taxied east along the expressway to suburban Blue Ash Airport.

Mrs. Linda Bash was also aboard the plane when it landed just ahead of a police cruiser. The plane ducked under a bridge and had to ride around a curve before stopping.

Normagene, April 2, 1951, or "pretty near April Fool's Day" as he likes to recall.

They have one daughter, 15-year-old Linda, a sophomore at Westfall High School.

Friends and neighbors of the Drummonds' are planning to hold a benefit Smorgasbord Dec. 12 at the Westfall High School to try and lend some financial aid to the family.

WILLIAM A. BENNETT

William A. Bennett, formerly with The Second National Bank of Circleville and The First National Bank of Chillicothe, started a new position with BancOhio Corporation in Columbus on November 22. He will be working with P. A. Goldsleger, comptroller, in accounting in the Treasurer's Office.

Before the transfer, Bennett had been working with First National in Chillicothe for two years while he learned all phases of the bank operation. He began in banking with Second National in Circleville for a few months while he was studying for his bachelor of business administration degree from Ohio University.

Currently, Bennett is a member of the Circleville Elks Club, Masons, Trinity Lutheran Church of Circleville and the American Institute of Banking from which he holds a Pre-standard Certificate. The Circleville High School graduate is also a member of Delta Sigma Pi professional business fraternity.

The Second National Bank of Circleville and The First National Bank of Chillicothe are both affiliated with BancOhio Corporation, Ohio's largest multi-bank holding company.

Noted Authors' Paintings Shown

CHICAGO (AP) — Harriet Beecher Stowe and Robert Louis Stevenson are remembered as writers, but their creative talent extended beyond the printed word.

They could also paint. An exhibition called "A Second Talent" at the Arts Club of Chicago explores this aspect of the creative lives of men and women known as writers. Nearly 200 paintings and

drawings from collections in the United States and Stockholm, Sweden, make up the exhibition, which continues until the end of the year.

The show will not be seen elsewhere.

Rue Winterbotham Shaw, club president, said many of the lenders would not make the works available for a traveling show.

The watercolors of Marianne Moore, the American poet, are being shown for the first time anywhere in this exhibition.

Miss Moore's delicate picture of a single white flower is hauntingly beautiful, and her pictures of a lighthouse and a room with open door show her to be an accomplished watercolorist.

Another haunting picture is also by a poet, William Butler Yeats. His watercolor of the lake at Coole is delicate and exquisite.

The humor of Mark Twain is as apparent in his little-known draftsman's work as it is in his writings. One of his drawings is titled "Un-eyed dog." His drawing is primitive but delightful.

James Thurber's dual talents as writer and cartoonist are well known. In this show a group of 12 unpublished Thurber drawings is shown. Only two of them are signed.

Miss Stowe, who is remembered primarily for her novel "Uncle Tom's Cabin," also painted still-lives and landscapes. A magnificent owl painted in oil is one of two pictures by Miss Stowe that are on display.

Stevenson, prolific author of "Treasure Island," is represented by a watercolor of his home in Samoa.

D.H. Lawrence, the novelist, and E. E. Cummings, the poet, also had reputations as artists.

Cleveland Atty. Gerald S. Gold had sought to represent both Gillys and did appear for the husband at his arraignment.

Judge Sweet, however, ruled there could be a possible conflict of interests and said Gold could represent either the husband or the wife, but not both.

Gold wrote the judge that though he took exception to the court's decision, he would abide by its order and elected "to represent Annette Gilly in her various cases."

SCOPS Sets Meeting At Nature Center

The next meeting of South Central Ohio Preservation Society will take place Saturday, Dec. 4th, at Cincinnati Nature Center, 20 miles east of Cincinnati.

Members and friends are asked to be there by 10 a.m. for the business meeting. Coffee will be served with lunches brought by each one.

To reach the center take Route 50 to Perintown, turn south off Round Bottom Road, go to Tealtown Road and turn left.

The Center was formerly the 175 acre estate of Carl and Mary Krippendorf in the Clermont Hills. Their daughter, Mrs. Philip Adams, wanted to preserve her parent's home. A non-profit organization was formed, the estate was purchased and more acreage was added.

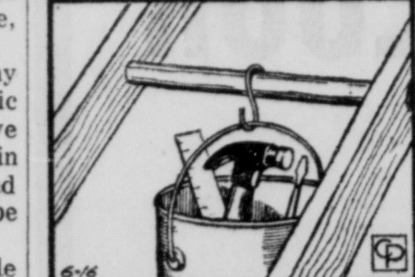

Thousands visit the Center every year and one of the reasons for this visit is to give the SCOPS members and friends an idea of what could be done in the way of a nature center in the SCOPS area.

at the world of paper.

Brown paper bags look naturally great if they are smooth and unrudded, especially with shiny brown, black or red ribbon or braided twine. Start keeping your bags from the grocery store smoothed out right now. You can either cut them into sheets for wrapping or keep the original bag shape and just drop your gifts in (fold the overlap and tape down). Instead of ribbon or twine, you might decorate them with bright-colored drawings, pictures or messages; or draw on a ribbon, bow and gift card with a felt-tip pen.

What's wrong with wrappings made of all the newspaper you get every Sunday — the funnies are colorful and black and white is always good. If you find a headline or cartoon that suits the person you're giving the gift to, circle it with a bright red pen, center it on the package top and ink in the "to-from" info instead of using a card.

Buy a rubber stamp from your stationery store that prints "Please Recycle" on any gift paper you buy, and remember to save any that you receive this Christmas for use next.

The bright printed shopping bags you get in department stores convert easily to wrapping paper.

Flip through magazines, cut out photographs or type to make your own collages to paste on the top of plain white boxes.

If you sew, use your little scraps to make patchwork wrappings for presents. Stitch larger pieces into pouch bags or totes to hold your gifts and put in a drawstring of twine, cord or yarn.

Stencil or spray-paint any containers — coffee can, plastic or oatmeal boxes — you've collected and put your gifts in them. If they are attractive and sturdy enough, they can be reused to store things later.

Decorate packages with little items people can use — bright elastic bands, a chain of paper clips, a cluster of nuts, or ribbons that someone can wear in her hair.

For small packages you can use the prettiest pages in magazines — again either color or black and white.

If you can't resist an abundance of ribbons, then compromise by avoiding paper. Just wrap the ribbon around the boxes your gifts came in.

GENERAL TENDENCIES: You can now see the ways and means by which you can make your property more valuable and also do something that will enhance the charm of whatever you happen to own. Be sure that you do seek suggestions from one who understands your present financial position so you can increase income.

ARIES (Mar. 21 to Apr. 19) Look into that new plan that will give you a sense of buoyancy and increase your income. Making payments and collections is vital now. Don't waste any time foolishly.

TAURUS (Apr. 20 to May 20) Taking those treatments that improve your health first will then insure that you have a successful day in business or social life later. Show others you have intellect and charm. Avoid one who gossips.

GEMINI (May 21 to June 21) You are able now to gain the favor of advisors privately, so tell them what your ideas, plans are. Once you have the information you want, use it to come to better understanding with close tie. Show you have wisdom.

Auto Liability Insurance Big Problem

COLUMBUS, Ohio (AP) — What problems Ohio has with its uninsured motorists will not be solved by compulsory liability insurance, says an official of the Ohio Department of Insurance.

In fact, claims Deputy Director E.E. Eckert, it could make problems worse.

Eckert noted that of the three states now requiring liability insurance to operate a motor vehicle, at least one—New York—has more uninsured motorists than ever before. "It's turned into an impossible thing to police," he said.

Eckert said some persons pay one premium on their liability insurance policies to qualify for their vehicle registration, then allow them to lapse until they must renew their licenses again.

Insurance costs also increase after the compulsory coverage goes into effect because of a sharp rise in claims, he said.

The extent of Ohio's problem with uninsured drivers is not great, especially when compared to other states, Eckert said. A recent department survey showed about one in ten drivers drive without insurance coverage.

Eckert said it was his guess that made Ohio one of the top states in the nation for liability protection.

to July 21) You have to both give and take today with friends otherwise nothing goes too well for you. Impressing one with favor you desire can best be done through group affairs. Choose the proper ones.

LEO (July 22 to Aug. 21) A bigwig wants to be convinced that your plan is a workable one before giving you the backing you need, so attend to this. Get the right results by good salesmanship. Think before you speak.

VIRGO (Aug. 22 to Sept. 22) If you want your new ideas to succeed, you have to take the right action quickly. Go to the proper sources for the information you need. Don't waste time on whatever is unimportant.

LIBRA (Sept. 23 to Oct. 22) Follow the suggestions of experts today as well as your hunches, which are most accurate. Show mate that you will cooperate more in the days ahead. Have a happier home life than in the past.

SCORPIO (Oct. 23 to Nov. 21) Endeavor to understand and cooperate more with the ideas of associates now and be more willing to make some of the adjustments yourself. Stick to important policies. Not a good day to get into the minutiae small ramifications.

SAGITTARIUS (Nov. 22 to Dec. 21) Plan to complete tasks you have started and put aside for lack of time, then you will come closer to the success you want. Find just the right kind of apparel which will make you look attractive bringing out your true personality.

CAPRICORN (Dec. 22 to Jan. 20) You can enjoy recreation in spare time with those you like provided you are not extravagant. Labor diligently on that interest that can become most important in the future. Precision is the keynote now.

AQUARIUS (Jan. 21 to Feb. 19) If you are forceful with those at home in an effort to put your own ideas across, you find that big arguments ensue. Use a more diplomatic approach. Get rid of whatever it is that disturbs the harmony at home.

PISCES (Feb. 20 to Mar. 20) Study reports for accuracy and then set up a better plan for the future so your life is happier, more prosperous and satisfying. Plan to see your doctor or dentist and improve your health. Take it easy in p.m.

IF YOUR CHILD IS BORN TODAY... he or she will be one of those delightful young people who will know intuitively what to do about personal matters, but will mull over anything connected with business too long and lose opportunities. Teach to be more involved in practical matters and then the nature balances itself for success and happiness. Teach kindness, also.

Newark Fire Probe Costly

NEWARK, Ohio (AP) — Newark's Fire Prevention Bureau was to begin a careful investigation today of Sunday's downtown blaze that gutted buildings for one-half a city block along the town square.

Estimates of damage to three buildings range from \$200,000 to \$300,000. Only minor injuries were reported in the early morning fire that took nearly six hours to bring under control once it was discovered.

Fire officials said the blaze apparently had been raging inside the two buildings for several hours before anyone noticed and notified firemen.

Some 140 firemen from throughout Licking County were called. Authorities said the fire apparently began about 1 a.m. in the rear of the Carousel Restaurant, then spread to a vacant furniture store. Offices of the Newark Credit Association and the Licking County Girl Scouts over the store were gutted. A third building housing a jewelry store and more offices received smoke and water damage throughout and minor fire damage to its roof.

Jews Leave Russia

GENEVA (AP) — Some 8,000 to 9,000 Soviet Jews were allowed to leave Russia and were helped to Israel by the Intergovernmental Committee for European Migration this year. John F. Thomas, American director of ICEM, told newsmen Friday the year's total of Soviet Jewish emigrants compares with only about 200 annually in previous years.

Dear Abby: Veterans Day Date Change Is Blasted

By Abigail Van Buren

DEAR ABBY: I am really teed off! All my life I have celebrated Veterans Day on Nov. 11. Now, all of a sudden it has been changed to Oct. 25.

I realize that when a holiday falls on Friday or a Monday it gives the working people an extra bonus of a three-day weekend, but to actually change the date of a national holiday in order to make it come out that way is absolutely stupid!

Nobody flew their flags on Veterans Day this year. And who could blame them? It just didn't seem like Veterans Day. Next thing you know, they'll be changing Christmas and the Fourth of July. Sign me:

DISGUSTED IN CHICAGO
DEAR DISGUSTED: If it will make you feel any better, you are not alone. I have heard from other readers who are disgusted all over. I think it all started when F.D.R. changed Thanksgiving.

DEAR ABBY: I am 15 years old and am 6 ft. 6, but that's not a problem because I have always been tall for my age.

My problem is what to answer people who ask me: "How's the weather up there?"

TALL BOY

DEAR TALL: Don't bother. They don't expect a reply. "They're in the same class with those who ask, 'Is it hot enough for ya?' (Or 'cold enough?')"

DEAR ABBY: Re "Mad in Maine"—the parents who were mad because an uncle took their children out of camp for an evening without their permission: The camp was badly at fault for releasing the children to anyone, even though he claimed to be their uncle, without express approval from the parents. And the uncle was at fault for not making his arrangements through the par-

ents.

Sorry, I had to disagree with you when you said the parents were needlessly overexercised. I am an old timer, and both a parent and former headmaster in a boys' boarding school.

E.A., BOCA RATON, FLA.
DEAR E.A.: Mea culpa! Ten whacks with a ruler, or what ever you headmasters used to whack the boys with when they needed it.

DEAR ABBY: Do you remember the Greenlease kidnapping of 18 to 20 years ago?

A couple arrived at a private school here in Kansas City, said they were Bobby's aunt and uncle, and walked out with the boy. He was later found murdered.

Today, we do not let a child out of school in this town, even to his parents without some positive identification. I would wonder about a camp that would release a child to anyone without the permission of the parents or guardian who placed them there.

Abby, please don't encourage any more uncles.

At the recent meeting of Pickaway Mental Health Association Chaplain Raymond Konkright of Orient State Institute gave reviews of the total policies and procedures exercised at Orient.

Mrs. Lowell Toland, the Association's representative to Columbus State Hospital, related plans for assistance with seasonal features.

Mrs. David Whaley gave highlights of the November membership meeting of The Ohio Mental Health Association held in Columbus.

After a report by Wayne Hines and Mrs. Tom Downing, members of the nominating committee, the following were elected to serve in official capacity for 1972:

Mrs. Clarence Willoughby, president; Edward Holmes Jr., vice president; Mrs. John Moss, secretary; and Mrs. M. A. Yates, treasurer. Serving on the board of directors will be Mrs. Toland, Mrs. Willoughby, Chaplain Konkright, and Mrs. Marcus Lackey.

Plans were made for the Dec. 12 meeting to be held at Orient. The program will be the preparation of gift packages for the residents of the institute.

About 8,200 Arabs from Israeli occupied territories are registered workers in Jerusalem.

The Blue And Gold

New Junior, Freshman Attend TV

By STEVE REED and SHARON REED

Joe Rinehart, 15, is a new freshman this year. Joe resides with his mother, Mrs. Katherine Rinehart at Route 1, Ashville.

Joe lists as his hobbies, riding horses and making model cars.

His favorite color is blue; food, pizza; and the song, "Gypsies, Tramps, and Thieves," by Cher. His dislikes are crowded halls and gym class. He lists as his likes, girls, cars, motorcycles, and people on Hondas.

Joe attended Medina School in Columbus before he came to TV.

When asked to comment on TV he said, "TV is bigger and better than Medina."

Charles Reed, 17, is a new junior who comes to TV from Montefiore High School in Chicago, Ill.

Charles resides with Mr. and Mrs. V. W. Hamby at 7076 Pickaway Road in Ashville. He is enrolled in the general courses.

He lists as his hobbies, cars, and motorcycles. Charles' favorites include: math, the colors blue and gold, fish, and all songs by The Turtles.

He likes cars, girls, and noisy study halls, but dislikes quiet people and Volkswagens.

When asked to comment on TV he said, "The people here seem to be nicer and the school itself has a lot of spirit."

62 Take Armed Forces Exam

Armed Forces Qualifications Test was administered to sixty-two seniors, 34 boys and 28 girls Friday.

The test provides a measure of ability in four areas: electronics, general mechanical, motor mechanical, and clerical-administrative. There was no cost or obligation to the students.

The test was given because a present no vocational ability testing is offered at any grade level in the school system. Results of the test will be interpreted to students along with appropriate vocational counseling.

TV Guidance Department is in charge of the testing program.

Sophomore's Dance Termed Big Success

By LINDA ROGERS

How do you define success? Sophomores apparently looked it up and set a good example when they held a dance recently at the school.

The Sophomore Class secured a good band, The Heard. The dance, held in the cafeteria, started with a slight drag (it wasn't the band either!) and ended with a bang. This is a good definition of success.

Look for the follow up on this article in the 1972-73 school year when the sophomores sponsor the Prom!

Teachers Propose Living Style Changes While Visiting Past

This is Janis Hoff roaming the halls of Teays Valley High School talking to the teachers and asking them the following question:

"If you could go back in time to be one of the original Pilgrims and you had the knowledge of all the modern conveniences of today, which one would you take with you and why?"

Mr. Noecker: "A bulldozer, unlimited fuel, oil, grease, and repairs. I would clear forests, and make roads, lead wagon trains, and fight Indians."

Mr. Pickering: "A car—too lazy to walk — will follow Mr. Noecker!"

Mrs. Bendycki: "Vitamin pills with iron to get me through that first winter!"

Mrs. Sams: "A tape recorder — to record what all the people say."

Mr. Fullen: "Electricity and color television. It'll give me something to do. I enjoy it so much."

Mr. Milam: "A red ink pen — to mark papers."

Mrs. Maynard: "A dishwasher — my husband hates to do the dishes!"

Mrs. J. Morrison: "A modern kitchen so that I could stay out of it."

Mr. Everett: "Twentieth century methods of housing and heating. I like to stay warm."

Jackie, is it true that you can sing bass, tenor, and soprano all at the same time?

Will the freshman basketball team have a perfect record, too?

Kathy, is geometry really as difficult as you say it is?

Seniors have more brains than the members in the other three classes because they have been in school longer.

Do you think that next week could be proclaimed as DON'T DO YOUR HOMEWORK WEEK?

Who will get the toothpaste smile award this year?

How many gained weight last week?

Becky, when you played the part of Mrs. Savage in the play, did it leave any after effects?

Lester, how many hours of sleep do you get in school?

Junior High Elects Officers

The week of Nov. 8 was campaign and election week at TVJHS. Candidates campaigned and officers were elected that week. Candidates were required to be on the honor roll the first six weeks.

The eighth grade had 19 students running for office, and the seventh grade had 15 students running. Students campaigned Monday through Thursday. Speeches were given to the whole student body Thursday.

The officers who were elected Friday were:

Eighth Grade — Bill Toole, president; Tom Green, vice-president; Cindy Kraft, secretary; Tami Trego, treasurer; Glenn Hinkle, news reporter.

Seventh grade — Warren Hoffman, president; Theresa Williams, vice-president; Amy Stewart, secretary; David Rainey, treasurer; Miki Brown, news reporter.

Science Club Tours RCA

By DEB GILBERT

On Nov. 17, Science Club members took a field trip to the RCA Plant in Circleville.

When they arrived at the plant, the club members listened to one of the guides give a talk and saw slides of the plant itself and the products which it manufactures.

After the speaker had concluded, club members divided into four groups and were given a grand tour through the plant. All were required to wear protective glasses and in some parts of the plant, protective ear muffs.

The trip proved to be an exciting and educational experience.

Those who participated are as follows: Rich Athey, Cheryl Azbell, Jeff Bethel, Flora Blakeman, Jack Brinker, John Browning, Steve Bumgarner, Mark Fillingim, Debbie Gilbert, Marsha Green, Joe Helsel, Wanda Helsel, Elmer Hines, Kathy Hoffman, Jessie Hosler, Roger Hott, Scott Huffer, Debbie Irwin, Hope Morris, Connie Morrison, Don Nichols, Diana Noecker, Jim Pabst, Jim Pritchard, Debbie Pontius, John Ritchie, Jan Roberts, Jeff Sheets, Karl Snyder, Carl Steigerwald, Ellen Tigner, Dave Warner, Janice Wilson, and Lydia Wilson.

Mr. James R. Davis, general science teacher and advisor of the group, and Mrs. Dale Schiff, bus driver, accompanied the members on the tour.

Members of the 1971 varsity squad are sophomores Jim Logsdon and Craig Pontius; juniors Dave Chaffin, Curt Fanning, Jim Pabst, Jerry Sabine, and Tim Triance; and seniors Jack Brinker, Steve Bumgarner, Randy Nungester, and Jeff Sheets.

The team is coached by Robert Hoover.

This week the Vikings will play West Jefferson on Friday and Grove City on Saturday. Both games will be played away.

Teens Hold Thanksgiving Assemblies

Thanksgiving assemblies were held for junior high students and high school students Nov. 24. The junior high assembly began at 11:30 followed by the high school assembly at 12:15.

The Reverend Don Chapman of Teen Challenge presented the Thanksgiving message to both groups.

Eighth grade choir sang at the junior high assembly. Their first number was "America the Beautiful" with Tammy Sayre as soloist. The second number was "I Want To Be Strong" with Maria Cook as accompanist.

The high school choir sang three numbers at the high school assembly, "Now Let Every Tongue Adore Thee!"; "Praise Ye the Father," with Darlene Neff, accompanist; and "This Is My Country," with Stephanie Mesner, accompanist. The special high school choir sang "God Bless America."

All three choirs were under the direction of Miss Darlene Freeman.

Jack Brinker, president of Student Council, was in charge of the high school assembly.

Sophomore's Letter In Magazine

Roger Martin, a sophomore, had a letter published in the "Rap Around" column of the Nov. 15 issue of American Observer, a magazine subscribed to by world history students. The magazine is published biweekly during the school year September through May.

Roger wrote, "I believe that the world's biggest problem is pollution and agriculture is responsible for a lot of it. Farm pollution exists in the form of pesticides, herbicides, fertilizers, and animal waste. But pollution also means garbage, trash, junk, and dumps. If we don't act now, we'll be living right in the middle of pollution in a few years."

Roger is a student in Mrs. Dorothy Beavers' world history class.

Freshmen Initiated During GAA Meeting

By JILL EHMAN

Girls Athletic Association members had their second meeting of the year Nov. 1. This was the initiation meeting for all freshmen joining the club.

A wiener roast was discussed by the girls, and a committee was appointed to make plans for it. Committee members are: Rhonda Wharton — chairman; Jill Trego, Wanda Helsel, and Jill Ehman. Plans were made to go bowling in Circleville on Dec. 18.

Refreshments were served by Karen Harmount, Darlene Neff, and Jill Ehman.

Juniors Receive '73 Class Rings

By SHARON REED

1971-72 Junior Class members ordered their class rings Sept. 17 and received them two months later.

The ring committee selected square-shaped rings for Junior Class members.

Those students on the ring committee were: Judy Ritchie, Pam Partee, Karen Harmount, Bridget Haines, Kathy Trego, Jim Pabst, Steve Clark, Pat Parsons, Jeff Chandler, Wilson Ett, Diana Pabst, Deb Lowry, and Jim Pritchard.

At 6:45 a.m. Wednesday, November 17, the Herff Jones Company representatives returned to TV so the students could pick up their rings before first period.

Taft Denies Andrews Ouster Plan

The Blue And Gold

New Junior, Freshman Attend TV

By STEVE REED and SHARON REED

Joe Rinehart, 15, is a new freshman this year. Joe resides with his mother, Mrs. Katherine Rinehart at Route 1, Ashville.

Joe lists as his hobbies, riding horses and making model cars.

His favorite color is blue; food, pizza; and the song, "Gypsies, Tramps, and Thieves," by Cher. His dislikes are crowded halls and gym class. He lists as his likes, girls, cars, motorcycles, and people on Hondas.

Joe attended Medina School in Columbus before he came to TV.

When asked to comment on TV he said, "TV is bigger and better than Medina."

Charles Reed, 17, is a new junior who comes to TV from Montefiore High School in Chicago, Ill.

Charles resides with Mr. and Mrs. V. W. Hamby at 7076 Pickaway Road in Ashville. He is enrolled in the general courses.

He lists as his hobbies, cars, and motorcycles. Charles favorites include: math, the colors blue and gold, fish, and all songs by The Turtles.

He likes cars, girls, and noisy study halls, but dislikes quiet people and Volkswagens.

When asked to comment on TV he said, "The people here seem to be nicer and the school itself has a lot of spirit."

62 Take Armed Forces Exam

Armed Forces Qualifications Test was administered to sixty-two seniors, 34 boys and 28 girls Friday.

The test provides a measure of ability in four areas: electronics, general mechanical, motor mechanical, and clerical-administrative. There was no cost or obligation to the students.

The test was given because a present no vocational ability testing is offered at any grade level in the school system. Results of the test will be interpreted to students along with appropriate vocational counseling.

TV Guidance Department is in charge of the testing program.

Sophomore's Dance Termed Big Success

By LINDA ROGERS

How do you define success? Sophomores apparently looked it up and set a good example when they held a dance recently at the school.

The Sophomore Class secured a good band, The Heard. The dance, held in the cafeteria, started with a slight drag (it wasn't the band either!) and ended with a bang. This is a good definition of success.

Look for the follow up on this article in the 1972-73 school year when the sophomores sponsor the Prom!

Teachers Propose Living Style Changes While Visiting Past

This is Janis Hoff roaming the halls of Teays Valley High School talking to the teachers and asking them the following question:

"If you could go back in time to be one of the original Pilgrims and you had the knowledge of all the modern conveniences of today, which one would you take with you and why?"

Mr. Noecker: "A bulldozer, unlimited fuel, oil, grease, and repairs. I would clear forests."

Junior High Elects Officers

The week of Nov. 8 was campaign and election week at TVJHS. Candidates campaigned and officers were elected that week. Candidates were required to be on the honor roll the first six weeks.

The eighth grade had 19 students running for office, and the seventh grade had 15 students running. Students campaigned Monday through Thursday. Speeches were given to the whole student body Thursday.

The officers who were elected Friday were: Eighth Grade — Bill Toole, president; Tom Green, vice-president; Cindy Kraft, secretary; Tami Trego, treasurer; Glenn Hinkle, news reporter.

Seventh grade — Warren Hoffman, president; Theresa Williams, vice-president; Amy Stewart, secretary; David Rainey, treasurer; Miki Brown, news reporter.

Science Club Tours RCA

By DEB GILBERT

On Nov. 17, Science Club members took a field trip to the RCA Plant in Circleville.

When they arrived at the plant, the club members listened to one of the guides give a talk and saw slides of the plant itself and the products which it manufactures.

After the speaker had concluded, club members divided into four groups and were given a grand tour through the plant. All were required to wear protective glasses and in some parts of the plant, protective ear muffs.

The trip proved to be an exciting and educational experience.

Those who participated are as follows: Rich Athey, Cheryl Azbell, Jeff Bethel, Flora Blakeman, Jack Brinker, John Browning, Steve Bumgarner, Mark Fillingner, Debbie Gilbert, Marsha Green, Joe Helsel, Wanda Helsel, Elmer Hines, Kathy Hoffman, Jessie Hosler, Roger Hott, Scott Huffer, Debbie Irwin, Hope Morris, Connie Morrison, Don Nichols, Diana Noecker, Jim Pabst, Jim Pritchard, Debbie Pontius, John Ritchie, Jan Roberts, Jeff Sheets, Karl Snyder, Carl Steigerwald, Ellen Tigner, Dave Warner, Janice Wilson, and Lydia Wilson.

Mr. James R. Davis, general science teacher and advisor of the group, and Mrs. Dale Schiff, bus driver, accompanied the members on the tour.

Varsity Basketball Team Wins First

Teays Valley basketball season opened Nov. 26 with the Vikings traveling to Miami Trace.

Members of the 1971 varsity squad are sophomores Jim Logsdon and Craig Pontius; juniors Dave Chaffin, Curt Fannin, Jim Pabst, Jerry Sabine, and Tim Triance; and seniors Jack Brinker, Steve Bumgarner, Randy Nungester, and Jeff Sheets.

The team is coached by Robert Hoover.

This week the Vikings will play West Jefferson on Friday and Grove City on Saturday. Both games will be played away.

Sophomore's Letter In Magazine

Roger Martin, a sophomore, had a letter published in the "Rap Around" column of the Nov. 15 issue of American Observer, a magazine subscribed to by world history students. The magazine is published biweekly during the school year September through May.

Roger wrote, "I believe that the world's biggest problem is pollution and agriculture is responsible for a lot of it. Farm pollution exists in the form of pesticides, herbicides, fertilizers, and animal waste. But pollution also means garbage, trash, junk, and dumps. If we don't act now, we'll be living right in the middle of pollution in a few years."

Roger is a student in Mrs. Dorothy Beavers' world history class.

Freshmen Initiated During GAA Meeting

By JILL EHMAN

Girls Athletic Association members had their second meeting of the year Nov. 1. This was the initiation meeting for all freshmen joining the club.

A wiener roast was discussed by the girls, and a committee was appointed to make plans for it. Committee members are: Rhonda Wharton — chairman; Jill Trego, Wanda Helsel, and Jill Ehman. Plans were made to go bowling in Circleville on Dec. 18.

Refreshments were served by Karen Harmount, Darlene Neff, and Jill Ehman.

Taft Denies Andrews Ouster Plan

CINCINNATI (AP) — U.S. Sen. Robert Taft Jr., R-Ohio, said here Sunday he was "unaware" of any plans to unseat John Andrews as chairman of the Ohio Republican party.

Supporters of Taft and of former GOP party head Ray Bliss had been identified in a story in the Columbus Dispatch as those behind a move to replace Andrews with John McElroy, chief aide to former Gov. James Rhodes during the years he was in office. McElroy is an attorney and a member of the state GOP central committee.

The Dispatch story said Taft had been shopping around for a new party leader since his victory in the 1970 party primary over Rhodes. Andrews backed the former governor.

Taft claimed, however, any change in party leadership rests "with the Ohio Republican Central Committee."

Taft said his only concern was for the future of the party and its plans for that future. and that "Andrews is included in those plans."

The Dispatch said consideration of the 62-year-old McElroy for the party's top post would be opposed by young Republican leaders who fear his age

Ancient Mansion Now Pop-Music Center

CANTERBURY, England (AP) — A 400-year-old mansion near Canterbury is about to become the noisiest stately home in England.

Charlton Park, a 16th century manor with a 100-acre garden, is being turned into a giant pop-music auditorium.

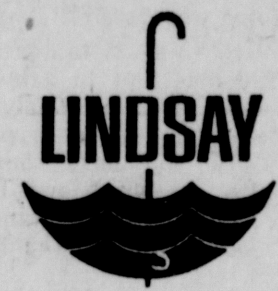

Owner Michael Underwood, an army colonel who likes music, said he is planning to install camping grounds, mobile lavatories, restaurants, medical teams and a day and night movie house.

Suit Would Prevent Shutoff By Utility

CLEVELAND, Ohio (AP) — A suit has been filed in U.S. District Court here in an effort to prevent the Cleveland Electric Illuminating Co. from shutting off electricity for non-payment of a bill unless there is a fair hearing for the customer.

The class action suit was filed by Mrs. Mary J. Thomas, a mother of eight, who is on welfare. It alleges that many utility bills are higher than they should be.

Area Gridders On AA District Team

Area Gridders were well represented on the Central District Class AA team with Circleville and Teays Valley picking up two places each on the first team.

Mark Davey, Tigers' stellar middle guard, Mike Hamrick, Circleville's tough linebacker, and Terry McDaniel, Teays Valley's defensive ace, were named to posts on the defensive squad while Jack Brinker, Teays Valley's strong tackle, was named to the offensive team.

Tom Frericks and Don Valentine of Circleville were named to the second defensive team with Jerry Smith of Westfall being selected on the second Class A defensive unit and Dave Kraft of Amanda Clearcreek gaining a berth on the second A offensive unit.

Bob Stuart who led Eastmoor to the first city playoff title in history this fall, was named Ohio Central District Class AAA high school football coach of the year today by The Associated Press.

Stuart guided the Warriors to a 9-1 record, including a 20-9 playoff triumph over Columbus

Linden-McKinley, and was selected for the coaching honors by a district panel of sports writers and broadcasters.

Archie Griffin, Eastmoor's high-scoring halfback, was chosen Class AAA district back of the year and Bob Grasso, an Upper Arlington guard, as the No. 1 lineman.

Paul Nestor of Central Catholic League king Columbus Wehrle was the Central District Class AA coach of the year and the area Class A honors went to Don Kay, the mentor of state champion Marion Pleasant.

Kim Girkins, Granville's top quarterback, was the top AA back and Joe Julian, a Columbus DeSales guard, the choice as the AA lineman of the year.

In Class A, Karl Lee, the rushing leader for Newark Catholic's powerhouse, was chosen the top back and Johnstown tackle Sam Victor the No. 1 lineman.

Tigers Clip Westfall, 84-62

It was an even battle for the first quarter, then Circleville began to find the range and bombarded the hoop for an 85-62 win over Westfall Saturday night at the Mill St. gym.

After the opening period closed with the count 15 all, Circleville moved out to a 39-29 advantage at halftime, upped the margin to 60-43 at the conclusion of the third canto and came winging home with

a big final quarter to gain the victory.

It developed into a shooting match between Dave Truex of the Tigers and Bruce Beatty of the Mustangs before the night was over.

Truex held a hot hand as he came up with 13 from the floor and seven from the charity stripe for a total of 33 points in the contest.

BUT he was edged for scoring

honors by Beatty, the sharp-shooter from Mustang country, who hit 10 from the hardwood and added 14 more from the free throw line to put 34 markers in the Westfall ledger, despite the fact he was being defended all over the floor.

Terry Morrison also put on a scoring display with nine from the field and four from the line for a total of 22 counters for the Tigers.

Dan Graham added 13 to the Tiger totals, Dave McHalick hooped six, Mike Hamrick four, Don Valentine three, Greg Hoskins two and Randy Sprout had one to complete the Red and Black scoring.

Score by Quarters: 1st 12-3, 2nd 15-28, 3rd 13-19, 4th 24-12. Circleville won the battle of the boards pulling down 42 misses while Westfall picked 32 off the glass.

It was Truex and Graham doing the job for the Tigers and Peterson was the big man on the boards for the Mustangs.

THE Tigers set a good pace from the floor hitting 32 of 63 attempts for 51 per cent while the Mustangs connected on 19 of 59 for 32 per cent from the field.

However, the Mustangs took free throw laurels with 24 of 32 for 75 per cent while the Tigers converted 20 of 37 for 55 per cent.

In the turnover department it was Westfall with 22 and Circleville misplayed the ball 15 times.

Valone and Riddle both fouled out midway through the fourth quarter which added to the Mustangs troubles.

Both squads battled on even terms during the opening stanza with Beatty and Truex pepping the hoop.

With the score knotted 21-21 midway through the second period both teams went into a series of turnovers with the ball moving back and forth across the mid court stripe like it was the main item in a ping pong match.

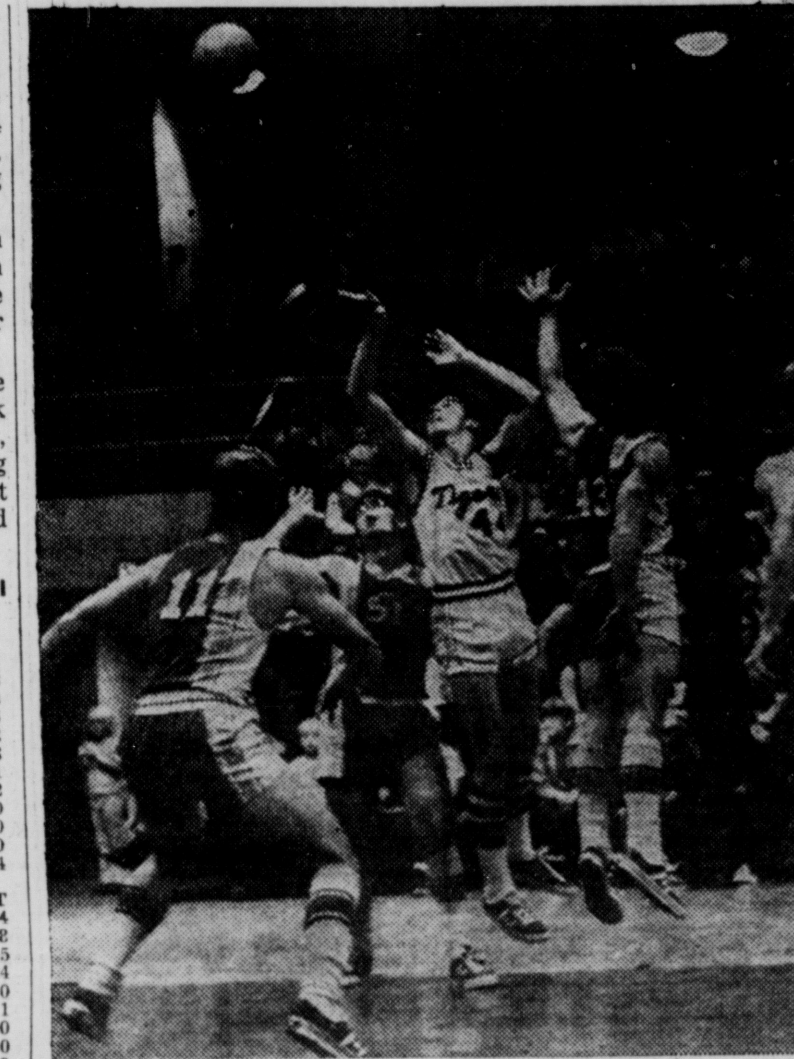

AT this point, Morrison and Truex began to rip the nets and despite a fine effort by Beatty pulled away to a 39-29 halftime lead.

The Tigers turned it all on in the third frame with Graham getting into the scoring act and took the game away from the Mustangs.

It was the same story in the fourth quarter as the Tigers continued to mount up points and both coaches cleared their benches in the latter part of the period.

Circleville is now 1-1 for the season and will open the defense of its South Central Ohio League crown Friday night when the Tigers travel to Miami Trace.

Westfall has a record of 2-2 for the year and will host Paint Valley in a Friday night encounter.

ALL ALONE — Dan Graham (44) of the Circleville Tigers is on his own as he sends a two pointer toward the bucket despite being surrounded by Mustangs. Westfall cagers are Mike Peterson (33), Chuck Steinhauser (11), Larry Harris (51) and Bruce Beatty (43). Circleville went on to down the Mustangs 84-62.

Ailing Veteran Gridders Return To Pro Action

By BRUCE LOWITT
Associated Press Sports Writer

Veterans Day arrived a bit late for National Football League quarterbacks this year.

Three of the walking wounded, field generals returning from summer smirmishes that had put them out of commission, joined the autumn of defenses Sunday.

Two of them won the battles but lost the wars. For the third, it was just the other way around.

Joe Namath, exploding onto the scene in New York, tossed three bombshells en route to a 258-yard aerial attack only to miss the mark in the last minute as the Jets bowed to the San Francisco 49ers 24-21.

And Bart Starr, coolly directing the Green Bay attack, watched as his troops committed tactical blunders that sent the Packers down to a 29-21 defeat the hands of the New Orleans Saints.

But Sonny Jurgensen, marching Washington into enemy territory, was knocked out of action and could only watch as Billy Kilmer barked the orders that carried the Redskins to a 20-13 victory over the Philadelphia Eagles.

In Sunday's other clashes, Baltimore walloped Oakland 37-14, Cleveland beat Houston 37-24, Denver defeated Pittsburgh 22-10, Cincinnati stomped San Diego 31-0, Minnesota smothered Atlanta 24-7, Buffalo topped New England 27-20 and St. Louis swatted the New York Giants 24-7.

In tonight's nationally televised (ABC, 9 p.m., EST) game, the Chicago Bears invade Miami to face the American Conference East-leading Dolphins.

As 63,936 fans screamed their approval, Namath trotted in to replace Jets' starter Bob Davis, injured in the second quarter. He proceeded to connect on 11 of 27 passes, including touchdowns of 57 and 20 yards to

Rich Caster and a 22-yarder to Ed Bell. But with New York on San Francisco's 19 with only seconds remaining, his pass to Bell was intercepted in the end zone by Johnny Fuller.

"I don't feel I played well. I've got to improve my mental state because I didn't feel at ease," Namath said.

Fisher Tops Aces, 99-76

Lancaster Fisher, with three players combining for a 75 point performance, out-offended Amanda Clearcreek Saturday night, 99-76.

Greg Romano led Fisher with 34 points, hitting for 13 field goals and 8 free throws. Bill Markwood added a 10 field goal, 4 free throw, 24 point game and Leo DeMastry scored 17 points on 8 field goals and a free throw to pace the Lancaster offense.

Fisher jumped to a 24-16 first quarter lead and completely dominated the game, stretching their lead to 48-28 at the half. Third quarter score was 72-50.

Mark Garrett paced the Aces with 7 field goals and 7 free throws for 21 points. Gary Rainer and Dave Kraft hit double figures for Amanda-Clearcreek, adding 11 and 10 points respectively.

Next game for the Aces is scheduled Friday when they host Bloom-Carroll.

AMANDA CLEARCREEK
Kraft, 4-2-10; Garrett, 7-21; Miller, 2-0-8; Rainer, 5-1-11; Glenning, 2-1-3; Riddle, 2-3-4; Stroud, 3-0-8; Strickler, 0-4-4; Foster, 1-1-3; Seibelton, 0-1-1; Totals, 35-24-76.

Bengals Trample Chargers With 31-0 Football Shutout

CINCINNATI (AP) — Paul Brown settled a few old golfing scores with John Hadl Sunday — on a football field.

"I can't stay with him. He booms the ball a mile off the tee," Brown said of the San Diego Chargers quarterback's links ability.

But football was the sport Sunday and the Bengals posted their first shutout in a four-year history, intercepting Hadl four times in a 31-0 romp.

In the National Football League off-season, Brown lives in the San Diego area at La Jolla and often plays golf with Hadl and Chargers Gary Garrison and Bob Babich.

Hadl, who could complete

only 5 of 18 passes for a meager 49 yards, treats Brown's football coaching ability like Brown talks of Hadl's golf.

"Cincinnati is the best coached team in pro football," said Hadl after San Diego dropped to a 4-7 mark, same as the Bengals.

"They don't make mistakes. They don't try to do anything they can't do offensively, and they execute well offensively and defensively," Hadl said.

The figures back Hadl, Cincinnati reeled off 81 plays to 45 and 411 total yards to 130 for San Diego.

In the process, the Bengals established club records of 28

first downs and six interceptions against the Chargers, playing their first game under interim coach Harland Svare.

Svare replaced Sid Gillman last week. Gillman remains as the club's general manager.

"In fairness to the Chargers," Brown said, "they reflected the shakeup in the organization today. That doesn't take anything away from my defensive guys though."

Virgil Carter, leading Cincinnati to its third straight victory, hit 19 of 24 passes for 173 yards and a 10-yard touchdown strike to Bob Trumpy.

Rookie running back Fred Willis from Boston College contributed scoring runs of two and three yards, ran 20 times for 90 yards and caught four passes for 44 yards.

Horst Muhlmann also booted a 40-yard Bengals field goal, but it was the defensive gems that caught Brown's eye, especially the work by linebacker Al Beauchamp.

Harness Races Show \$594 Net Profit In 1971

Harness racing at the 1971 Pickaway County Fair netted \$594 for the Agricultural Society it has been announced by John Fissell, race secretary.

Only one day of racing was held and \$500 had to be returned to the state.

Income included \$2,500 for purses from the state, less the \$500 that had to be returned, \$500 from the state for track maintenance, \$190 in entry fees, \$91 admission to the grandstand, \$26.50 in the sale of programs, \$315 advertising and \$120 in donations for trophy blankets.

Expenses totaled \$2,148.10 with \$1,500 for purses, \$250 for starting gate, \$85 for the presiding judge, \$60 for the announcer, \$150 for printing the programs, \$58.10 for blankets and \$45 for straw.

Next year the speed committee plans to hold one day of racing during the fair and one day during Pumpkin Show.

Wooden Surprised At UCLA Top Rating As Cage Team

LOS ANGELES (AP) — "That's odd," said John Wooden of the UCLA Bruins' No. 1 preseason ranking among the nation's college basketball teams.

"They must be looking at our past record," said Wooden of The Associated Press poll released Saturday night. Because the Bruins are rebuilding, Wooden didn't expect his team's top billing.

"I'm very surprised at that since we only have one returning starter," said Coach Wooden, referring to senior guard Henry Bibby.

UCLA received 11 first-place votes and 650 points from the panel of 36 sportswriters and sportscasters.

Wooden is accustomed to the No. 1 rating. His teams have won the national championship seven of the last eight seasons, including an unprecedented five consecutive titles through last season.

The inexperienced but talented Bruins are rated ahead of North Carolina, 521 points and seven first place votes; Southern California, 494 and six; Marquette, 487 and three, and Ohio State, 413 and six.

Wooden said he wouldn't name a No. 1 team but if he did "it would be one of several

I think there's going to be a number of good teams.

"I certainly feel, as I look down the list, that those teams are all very fine."

North Carolina, Southern Cal, Marquette, Ohio State—they all have good groups of returning players, said Wooden. UCLA and sixth-ranked Maryland, he said, are unproven.

"The only ones that might surprise me, on the basis of freshman—now sophomore—possibility, are UCLA and Maryland," Wooden said. Maryland will count on big Tom McMillen, a sophomore, and UCLA is building around sophomore Bill Walton, who is 6 feet, 10½ inches.

Long Beach State, ranked No. 8 behind Houston, "should be higher," Wooden said. "I definitely feel they (Long Beach) will be higher than eighth at the end of the season."

Nebraska - Alabama Title Tilt Set

By HERSCHEL NISSENSEN
Associated Press Sports Writer

"Coach Bryant is a great coach and a good friend of mine," Nebraska's Bob Devaney was saying last Thursday following the Cornhuskers' 35-31 victory over Oklahoma, "but he's given me a lot of trouble on the ball field."

"We can start thinking about Nebraska now," Bear Bryant said Saturday after Alabama's 31-7 trouncing of previously unbeaten Auburn.

Devaney and Bryant will meet in a bowl game for the third time on the night of Jan. 1 in the Orange Bowl and the winner is likely to be college football's national champion, a position held by Nebraska since a 17-12 Orange Bowl triumph

over Louisiana State last January.

Last week, Nebraska was ranked first and Alabama third in The Associated Press poll, but the Crimson Tide undoubtedly will move up to second, with Oklahoma slipping a bit. Alabama and Bryant defeated Nebraska and Devaney 39-28 in the 1966 Orange Bowl and 34-7 in the 1967 Sugar Bowl.

Devaney watched the Alabama wrecking crew demolish Auburn on television and said the Tide looked "very powerful," adding:

"I think the pressure on this Orange Bowl will be very similar" to the Oklahoma buildup.

Like Oklahoma, Alabama runs from a Wishbone offense and Devaney said: "They're

very similar, but I think the Alabama offensive line is a little bigger than Oklahoma. Alabama is a real well-balanced team."

Alabama's walloping of Auburn was the featured attraction of college football's final big weekend, although five games remain to be played next Saturday—Nebraska at Hawaii, Oklahoma at Oklahoma State, Penn State at Tennessee, Syracuse at Miami, Fla., and North Texas State at San Diego State.

Among the winners were four bowl rivals. Ninth-ranked Arizona State blanked Arizona 31-0 and the Sun Devils' Fiesta Bowl opponent, Florida State, trimmed Pitt 31-13. Louisiana State, No. 10, whipped Tulane

36-7 while Iowa State, which faces the Tigers in the Sun Bowl, outscored San Diego State 48-31.

Tennessee, rated 11th, scored all its points in the final period to turn back Vanderbilt 19-7 and take an 8-2 record into next Saturday's nationally televised windup with Penn State. And No. 16 Huston prepped for the Astro-Bluebonnet Bowl by routing Utah 42-16.

Elsewhere, Army edged Navy 24-23, John Reeves smashed Jim Plunkett's career pass yardage record in Florida's wild 45-16 drubbing of state rival Miami. Boston College downed Holy Cross 21-7 to finish 9-2 and uninvited, Baylor lost to Rice 23-0 and Coach Bill Beall lost his job and Hawaii stunned New Mexico 28-21.

Linebacker Darryl Haas and defensive back Charlie Richardson of the Air Force football team were teammates at King High in Corpus Christi, Tex.

Area Gridders On AA District Team

Area Gridders were well represented on the Central District Class AA team with Circleville and Teays Valley picking up two places each on the first team.

Mark Davey, Tigers' stellar middle guard, Mike Hamrick, Circleville's tough linebacker, and Terry, McDaniel, Teays Valley's defensive ace, were named to posts on the defensive squad while Jack Brinker, Teays Valley's strong tackle, was named to the offensive team.

Tom Frericks and Don Valentine of Circleville were named to the second defensive team with Jerry Smith of Westfall being selected on the second Class A defensive unit and Dave Kraft of Amanda Clearcreek gaining a berth on the second A offensive unit.

Bob Stuart who led Eastmoor to the first city playoff title in history this fall, was named Ohio Central District Class AAA high school football coach of the year today by The Associated Press.

Stuart guided the Warriors to a 9-1 record, including a 20-9 playoff triumph over Columbus

Linden-McKinley, and was selected for the coaching honors by a district panel of sports writers and broadcasters.

Archie Griffin, Eastmoor's high-scoring halfback, was chosen Class AAA district back of the year and Bob Grasso, an Upper Arlington guard, as the No. 1 lineman.

Paul Nestor of Central Catholic League king Columbus Wehrle was the Central District Class AA coach of the year and the area Class A honors went to Don Kay, the mentor of state champion Marion Pleasant.

Kim Girkins, Granville's rangy quarterback, was the top AA back and Joe Julian, a Columbus DeSales guard, the choice as the AA lineman of the year.

In Class A, Karl Lee, the rushing leader for Newark Catholic's powerhouse, was chosen the top back and Johnstown tackle Sam Victor the No. 1 lineman.

Tigers Clip Westfall, 84-62

It was an even battle for the first quarter, then Circleville began to find the range and bombarded the hoop for an 85-62 win over Westfall Saturday night at the Mill St. gym.

After the opening period closed with the count 15 all, Circleville moved out to a 39-29 advantage at halftime, upped the margin to 60-43 at the conclusion of the third canto and came winging home with

a big final quarter to gain the victory.

It developed into a shooting match between Dave Truex of the Tigers and Bruce Beatty of the Mustangs before the night was over.

Truex held a hot hand as he came up with 13 from the floor and seven from the charity stripe for a total of 33 points in the contest.

BUT he was edged for scoring

honors by Beatty, the sharp-shooter from Mustang country, who hit 10 from the hardwood and added 14 more from the free throw line to put 34 markers in the Westfall ledger, despite the fact he was being defended all over the floor.

Terry Morrison also put on a scoring display with nine from the field and four from the line for a total of 22 counters for the Tigers.

Dan Graham added 13 to the Tiger totals, Dave Mehalick hooped six, Mike Hamrick four, Don Valentine three, Greg Hoskins two and Randy Sprout had one to complete the Red and Black scoring.

Score by Quarters: 1st 12-10, 2nd 15-10, 3rd 15-10, 4th 12-12.

Officials: Marvin Peterson and Jim Loughman.

Reserve Game: Circleville 57, Westfall 32.

Larry Harris tallied 10 points for the Mustangs, Scott Riddle added eight, Doug McKay five, John Valone four and Mike Peterson had one to account for the Westfall totals.

Circleville won the battle of the boards pulling down 42 misses while Westfall picked 32 off the glass.

It was Truex and Graham doing the job for the Tigers and Peterson was the big man on the boards for the Mustangs.

THE Tigers set a good pace from the floor hitting 32 of 63 attempts for 51 per cent while the Mustangs connected on 19 of 59 for 32 per cent from the field.

However, the Mustangs took free throw laurels with 24 of 32 for 75 per cent while the Tigers converted 20 of 37 for 55 per cent.

In the turnover department it was Westfall with 22 and Circleville misplayed the ball 15 times.

Valone and Riddle both fouled out midway through the fourth quarter which added to the Mustangs troubles.

Both squads battled on even terms during the opening stanza with Beatty and Truex peppering the hoop.

With the score knotted 21-21 midway through the second period both teams went into a series of turnovers with the ball moving back and forth across the mid court stripe like it was the main item in a ping pong match.

AT this point, Morrison and Truex began to rip the nets and despite a fine effort by Beatty pulled away to a 39-29 halftime lead.

The Tigers turned it all on in the third frame with Graham getting into the scoring act and took the game away from the Mustangs.

It was the same story in the fourth quarter as the Tigers continued to mount up points and both coaches cleared their benches in the latter part of the period.

Circleville is now 1-1 for the season and will open the defense of its South Central Ohio League crown Friday night when the Tigers travel to Miami Trace.

Westfall has a record of 2-2 for the year and will host Paint Valley in a Friday night encounter.

ALL ALONE — Dan Graham (44) of the Circleville Tigers is on his own as he sends a two pointer toward the basket despite being surrounded by Mustangs.

Westfall eagles are Mike Peterson (33), Chuck Steinhauer (11), Larry Harris (51) and Bruce Beatty (43). Circleville went on to down the Mustangs 84-62.

Bengals Trample Chargers With 31-0 Football Shutout

CINCINNATI (AP) — Paul Brown settled a few old golfing scores with John Hadl Sunday — on a football field.

"I can't stay with him. He booms the ball a mile off the tee," Brown said of the San Diego Chargers quarterback's links ability.

But football was the sport Sunday and the Bengals posted their first shutout in a four-year history, intercepting Hadl four times in a 31-0 romp.

In the National Football League off-season, Brown lives in the San Diego area at La Jolla and often plays golf with Hadl and Chargers Gary Garrison and Bob Babich.

Hadl, who could complete

only 5 of 18 passes for a meager 49 yards, treats Brown's football coaching ability like Brown talks of Hadl's golf.

"Cincinnati is the best coached team in pro football," said Hadl after San Diego dropped to a 4-7 mark, same as the Bengals.

"They don't make mistakes. They don't try to do anything they can't do offensively, and they execute well offensively and defensively," Hadl said.

The figures back Hadl. Cincinnati reeled off 81 plays to 45 and 411 total yards to 130 for San Diego.

In the process, the Bengals established club records of 28

first downs and six interceptions against the Chargers, playing their first game under interim coach Harland Svare.

Svare replaced Sid Gillman last week. Gillman remains as the club's general manager.

"In fairness to the Chargers," Brown said, "they reflected the shakeup in the organization today. That doesn't take anything away from my defensive guys though."

Virgil Carter, leading Cincinnati to its third straight victory, hit 19 of 24 passes for 173 yards and a 10-yard touchdown strike to Bob Trumpy.

Rookie running back Fred Willis from Boston College contributed scoring runs of two and three yards, ran 20 times for 90 yards and caught four passes for 44 yards.

Horst Muhlmann also booted a 40-yard Bengals field goal, but it was the defensive gems that caught Brown's eye, especially the work by linebacker Al Beauchamp.

Harness Races Show \$594 Net Profit In 1971

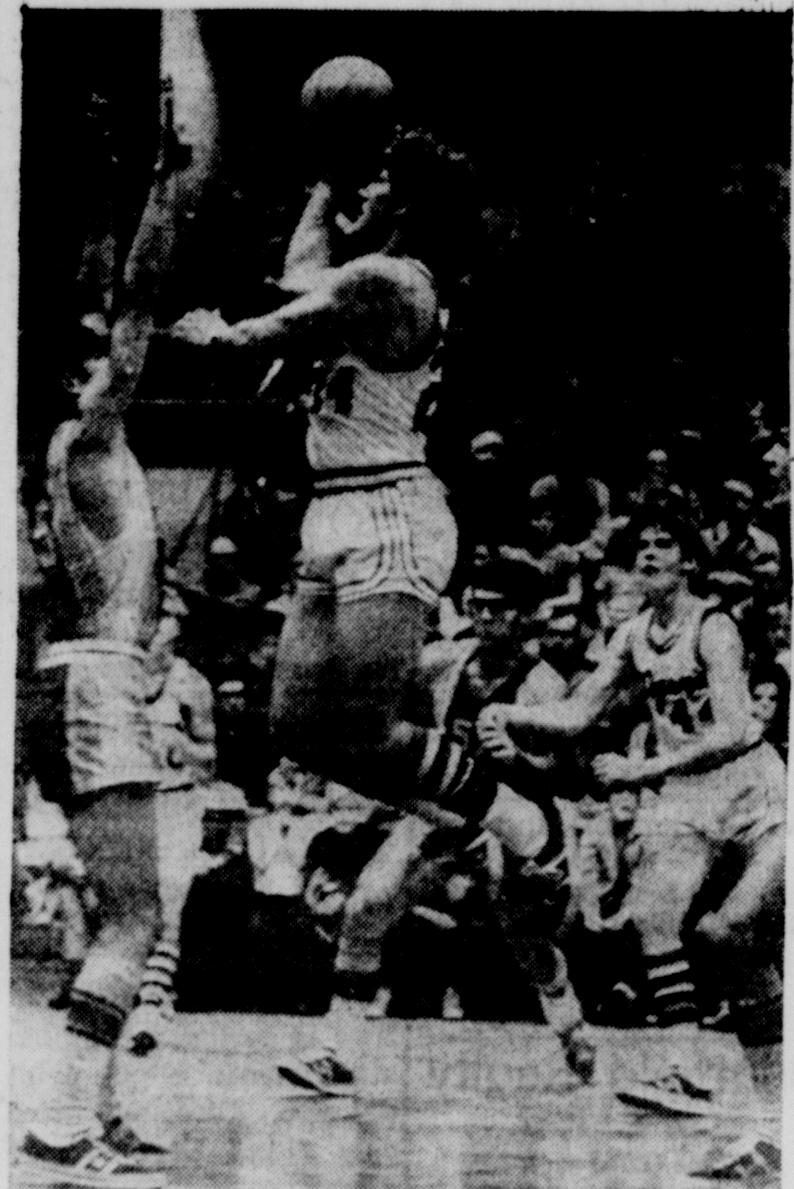

Harness racing at the 1971 Pickaway County Fair netted \$594 for the Agricultural Society it has been announced by John Fissell, race secretary.

Only one day of racing was held and \$500 had to be returned to the state.

Income included \$2,500 for purses from the state, less the \$500 that had to be returned, \$500 from the state for track maintenance, \$190 in entry fees, \$91 admission to the grandstand, \$26.50 in the sale of programs, \$315 advertising and \$120 in donations for trophy blankets.

Expenses totaled \$2,148.10 with \$1,500 for purses, \$250 for starting gate, \$85 for the presiding judge, \$60 for the announcer, \$150 for printing the programs, \$58.10 for blankets and \$45 for straw.

Next year the speed committee plans to hold one day of racing during the fair and one day during Pumpkin Shw.

SPAE CHANGER — Circleville's Dave Truex hangs in the air before sending the ball at the basket as Scott Riddle attempts to block the

shot. Dan Graham (44) moves into the picture along with Larry Harris (51) and Mike Peterson (33) of the Mustangs.

Circleville Reserves Down Westfall Junior Varsity

Kris Kline ripped the nets for 22 points as he led the Circleville reserves to a 57-32 win over Westfall Friday night at the Mill St. gym.

It was Circleville jumping off to a 14-5 lead at the end of the first quarter and then adding to it as the little Tigers dominated in the contest.

They led 31-15 at halftime, 43-22 at the end of the third period and finished up with a 57-32 victory.

Robin Martin added 12 markers, Doug Radabaugh and John Ankrom each had six. Robin Ott tallied four, Don Goeller, Kevin Wood and Andy Rhoads had two apiece and J.

C. Timberlake had one for the Tigers.

JAY Clark led the Mustangs with 11 markers, Artie Dick and Dave Shannon each had seven, Joe Angles added four, Chuck Graffis had two and Jim Mosely tallied one for the Westfall totals.

Circleville will be at Miami Trace Friday night and Westfall will be at home with Paint Valley.

Senior High Cage Contests At Y

The Senior High YMCA basketball league will get underway Wednesday at the Y gym on Franklin St.

It will be a five team league and games will get started at 7 p.m. with the second contest set for 8 p.m.

Wednesday games will be Supersonics vs Pistons in the opener and Birds vs Hawks in the nightcap.

Linebacker Darryl Haas and defensive back Charlie Richardson of the Air Force football team were teammates at King High in Corpus Christi, Tex.

Wooden Surprised At UCLA Top Rating As Cage Team

LOS ANGELES (AP) — "That's odd," said John Wooden of his UCLA Bruins' No. 1 preseason ranking among the nation's college basketball teams.

"They must be looking at our past record," said Wooden of The Associated Press poll released Saturday night. Because the Bruins are rebuilding, Wooden didn't expect his team's top billing.

"I'm very surprised at that since we only have one returning starter," said Coach Wooden, referring to senior guard Henry Bibby.

UCLA received 11 first-place votes and 650 points from the panel of 36 sportswriters and sportscasters.

Wooden is accustomed to the No. 1 rating. His teams have won the national championship seven of the last eight seasons, including an unprecedented five consecutive titles through last season.

The inexperienced but talented Bruins are rated ahead of North Carolina, 521 points and seven first place votes; Southern California, 494 and six; Marquette, 487 and three, and Ohio State, 413 and six.

Wooden said he wouldn't name a No. 1 team but if he did "it would be one of several.

I think there's going to be a number of good teams.

"I certainly feel, as I look down the list, that those teams are all very fine."

North Carolina, Southern Cal, Marquette, Ohio State—they all have good groups of returning players, said Wooden. UCLA and sixth-ranked Maryland, he said, are unproven.

"The only ones that might surprise me, on the basis of freshman—now sophomore—possibility, are UCLA and Maryland," Wooden said. Maryland will count on big Tom McMillen, a sophomore, and UCLA is building around sophomore Bill Walton, who is 6 feet, 10½ inches.

Long Beach State, ranked No. 8 behind Houston, "should be higher," Wooden said. "I definitely feel they (Long Beach) will be higher than eighth at the end of the season.

Nebraska - Alabama Title Tilt Set

By HERSCHEL NISSENSON Associated Press Sports Writer

"Coach Bryant is a great coach and a good friend of mine," Nebraska's Bob Devaney was saying last Thursday following the Cornhuskers' 35-31 victory over Oklahoma, "but he's given me a lot of trouble on the ball field."

"We can start thinking about Nebraska now," Bear Bryant said Saturday after Alabama's 31-7 trouncing of previously unbeaten Auburn.

Devaney and Bryant will meet in a bowl game for the third time on the night of Jan. 1 in the Orange Bowl and the winner is likely to be college football's national champion, a position held by Nebraska since 17-12 Orange Bowl triumph

over Louisiana State last January.

Last week, Nebraska was ranked first and Albam third in The Associated Press poll, but the Crimson Tide undoubtedly will move up to second, with Oklahoma slipping a bit. Alabama and Bryant defeated Nebraska and Devaney 39-28 in the 1966 Orange Bowl and 34-7 in the 1967 Sugar Bowl.

Devaney watched the Alabama wrecking crew demolish Auburn on television and said the Tide looked "very powerful," adding:

"I think the pressure on this Orange Bowl will be very similar" to the Oklahoma buildup. Like Oklahoma, Alabama runs from a wishbone offense and Devaney said: "They're

very similar, but I think the Alabama offensive line is a little bigger than Oklahoma. Alabama is a real well-balanced team."

Alabama's walloping of Auburn was the featured attraction of college football's final big weekend, although five games remain to be played next Saturday—Nebraska at Hawaii, Oklahoma at Oklahoma State, Penn State at Tennessee, Syracuse at Miami, Fla., and North Texas State at San Diego State.

Among the winners were four bowl rivals. Ninth-ranked Arizona State blanked Arizona 31-0 and the Sun Devils' Fiesta Bowl opponent, Florida State, trimmed Pitt 31-13. Louisiana State, No. 10, whipped Tulane

36-7 while Iowa State, which faces the Tigers in the Sun Bowl, outscored San Diego State 48-31.

Tennessee, rated 11th, scored all its points in the final period to turn back Vanderbilt 19-7 and take an 8-2 record into next Saturday's nationally televised windup with Penn State. And No. 16 Huston prepped for the Astro-Bluebonnet Bowl by routing Utah 42-16.

Elsewhere, Army edged Navy 24-23, John Reeves smashed Jim Plunkett's career pass yardage record in Florida's wild 45-16 drubbing of state rival Miami. Boston College downed Holy Cross 21-7 to finish 9-2 and uninvited, Baylor lost to Rice 23-0 and Coach Bill Beall lost his job and Hawaii stunned New Mexico 28-21.

Ailing Veteran Gridders Return To Pro Action

By BRUCE LOWITT Associated Press Sports Writer

Veterans Day arrived a bit late for National Football League quarterbacks this year.

Three of the walking wounded, field generals returning from summer smirmishes that had put them out of commission, joined the autumn off-fenses Sunday.

Two of them won the battles but lost the wars. For the third, it was just the other way around.

Joe Namath, exploding onto the scene in New York, tossed three bombshells on route to a 258-yard aerial attack only to miss the mark in the last minute as the Jets bowed to the San Francisco 49ers 24-21.

And Bart Starr, coolly directing the Green Bay attack, watched as his troops committed tactical blunders that sent the Packers down to a 29-21 defeat the hands of the New Orleans Saints.

But Sonny Jurgensen, marching Washington into enemy territory, was knocked out of action and could only watch as Billy Kilmer barked the orders that carried the Redskins to a 20-13 victory over the Philadelphia Eagles.

In Sunday's other clashes, Baltimore walloped Oakland 37-14, Cleveland beat Houston 37-24, Denver defeated Pittsburgh 22-10, Cincinnati stomped San Diego 31-0, Minnesota smothered Atlanta 24-7, Buffalo topped New England 27-20 and St. Louis swatted the New York Giants 24-7.

In tonight's nationally televised (ABC, 9 p.m., EST) game, the Chicago Bears invaded Miami to face the American Conference East-leading Dolphins.

As 63,936 fans screamed their approval, Namath trotted in to replace Jets' starter Bob Davis, injured in the second quarter.

He proceeded to connect on 11 of 27 passes, including touchdowns of 57 and 20 yards to

Rich Caster and a 22-yarder to Ed Bell. But with New York on San Francisco's 19 with only seconds remaining, his pass to Bell was intercepted in the end zone by Johnny Fuller.

"I don't feel I played well. I've got to improve my mental state because I didn't feel at ease," Namath said.

Fisher Tops Aces, 99-76

Lancaster Fisher, with three players combining for a 75 point performance, out-offensed Amanda Clearcreek Saturday night, 99-76.

Greg Romano led Fisher with 34 points, hitting for 13 field goals and 8 free throws. Bill Markwood added a 10 field goal, 4 free throw, 24 point game and Leo DeMastry scored 17 points on 8 field goals and a free throw to pace the Lancaster offense.

Fisher jumped to a 24-16 first quarter lead and completely dominated the game, stretching their lead to 48-28 at the half. Third quarter score was 72-50.

Mark Garrett paced the Aces with 7 field goals and 7 free throws for 21 points. Gary Rainer and Dave Kraft hit double figures for Amanda Clearcreek, adding 11 and 10 points respectively.

Next game for the Aces is scheduled Friday when they host Bloom-Carroll.

Hale Irwin Wins Heritage

HILTON HEAD ISLAND, S.C. (AP) — "Winning is everything. That's what athletics is all about."

Young Hale Irwin was holding forth Sunday after scoring his first pro victory. He had just beaten a stellar field that included Jack Nicklaus, Arnold Palmer and Lee Trevino to take the Heritage Golf Classic.

"If a person hasn't tasted victory and defeat, or maybe I should say defeat and victory in that order, they just don't know what it's all about."

"I've been close enough to win before and didn't, so I know."

Irwin, a one-time football star at Colorado and a former national collegiate golf champion, admitted that the memory of an 18th-hole collapse at the Los Angeles Open almost two years ago haunted him as he came to the final hole on the tough Harbour Town Golf Links with a one stroke lead. He bogeyed the 18th at Los Angeles to fall into a tie with Billy Casper and lost in a playoff.

"I told myself if I ever got in that position again, I wouldn't do the same thing again—and I didn't."

Irwin made a crucial par on the 458-yard par four hole and preserved a one-stroke margin over Bob Lunn for the \$22,000 first prize.

Irwin, a 26-year-old, 6-foot, 170 pounder with a soft and thoughtful manner of speaking, finished with a one-under-par 70 and a tournament record 279.

Lunn was next with a 70-280, with Nicklaus and Frank Beard tied for third at 281. Nicklaus, in position to win until he bogeyed the 17th hole when a gust of wind caught the ball in the air and caused him to miss the green, had a 70. Beard scored the best round of the cool, sunny day with a solid, four-under-par 67.

Hale Irwin Wins Heritage

HILTON HEAD ISLAND, S.C. (AP) — "Winning is everything. That's what athletics is all about."

Young Hale Irwin was holding forth Sunday after scoring his first pro victory. We had just beaten a stellar field that included Jack Nicklaus, Arnold Palmer and Lee Trevino to take the Heritage Golf Classic.

"If a person hasn't tasted victory and defeat, or maybe I should say defeat and victory in that order, they just don't know what it's all about."

"I've been close enough to win before and didn't, so I know."

Irwin, a one-time football star at Colorado and a former national collegiate golf champion, admitted that the memory of an 18th-hole collapse at the Los Angeles Open almost two years ago haunted him as he came to the final hole on the tough Harbour Town Golf Links with a one stroke lead. He bogeyed the 18th at Los Angeles to fall into a tie with Billy Casper and lost in a playoff.

"I told myself if I ever got in that position again, I wouldn't do the same thing again—and I didn't."

Irwin made a crucial par on the 458-yard par four hole and preserved a one-stroke margin over Bob Lunn for the \$22,000 first prize.

Irwin, a 26-year-old, 6-foot, 170 pounder with a soft and thoughtful manner of speaking, finished with a one-under-par 70 and a tournament record 279.

Lunn was next with a 70-280, with Nicklaus and Frank Beard tied for third at 281. Nicklaus, in position to win until he bogeyed the 17th hole when a gust of wind caught the ball in the air and caused him to miss the green, had a 70. Beard scored the best round of the cool, sunny day with a solid, four-under-par 67.
